

ART 6.7.1.3.2 Construct Vehicle, Information Systems, Equipment, and Material Protective Positions

Provide cover and concealment for vehicles, information systems nodes, equipment, supplies, and other materials that do not provide or conduct direct fire.(FM 5-103) (USAES)

NO.	Scale	Measure
01	Yes/No	The use of vehicle, information systems, equipment, and material protective positions preserved unit personnel, equipment, and supplies for future missions.
02	Time	To conduct an area reconnaissance including environmental considerations.
03	Time	To design protective positions for vehicle, information systems, equipment, and material not directly involved in fighting, and decide correct placement to maximize terrain effectiveness.
04	Time	To establish the degree of local security for the construction effort.
05	Time	To obtain the equipment and supplies to construct vehicle, information systems, equipment, and material protective positions.
06	Time	To construct vehicle, information systems, equipment, and material protective positions with engineer support.
07	Percent	Of on-hand equipment and supplies available to construct vehicle, information systems, equipment, and material protective positions.
08	Percent	Of personnel trained to construct vehicle, information systems, equipment, and material protective positions.
09	Percent	Of planned vehicle, information systems, equipment, and material protective positions completed.
10	Percent	Of completed vehicle, information systems, equipment, and material protective positions constructed to standard.
11	Percent	Of unit vehicles, information systems, equipment, and material supplies not protected by protective positions.
12	Percent	Of friendly casualties due to improperly constructed or sited vehicle, information systems, equipment, and or material protective positions.

13	Percent	Of casualties or equipment and supplies lost due to the nonavailability of vehicle, information systems, equipment, and or material protective positions.
14	Number	Of planned vehicle, information systems, equipment, and material protective positions completed.
15	Number	Of friendly casualties due to improperly constructed or sited vehicle, information systems, equipment, and material protective positions.
16	Number	Of friendly casualties or equipment and supplies lost due to the nonavailability of vehicle, information systems, equipment, and material protective positions.

Supporting Collective Tasks:

Task No.	Title	Proponent	Echelon
05-3-3000	Construct Bunkers and Shelters	05 - Engineers (Collective)	Platoon
05-3-3014	Construct Vehicle Protective Positions	05 - Engineers (Collective)	Platoon
17-5-8008	Restore a Vehicle after Transport	17 - Armor (Collective)	Team (TOE)
34-2-0011	Maintain Operations Security	34 - Combat Electronic Warfare and Intelligence (Collective)	Company
