

ART 2.4.1 Provide Intelligence Support to Targeting

The intelligence officer (supported by the entire staff) provides the fire support coordinator, information engagement officer, and electronic warfare officer, and other staff officers with information and intelligence for targeting the threat's forces and systems with direct and indirect lethal and nonlethal fires. The information and intelligence includes identification of threat capabilities and limitations. The targeting process uses the decide, detect, deliver, and assess methodology. The intelligence officer supports targeting by providing accurate, current intelligence and information to the staff and ensures the ISR plan supports the finalized targeting plan. (FM 2-0) (USAICoE)
 Note: This task branch supports ART 3.2 (Detect and Locate Surface Targets) and is a byproduct of decide, detect, deliver, and assess.
