

805D-56M-1303
Extract Pertinent Information from Plans or Orders
Status: Approved

Security Classification: U - Unclassified

Distribution Restriction: Approved for public release; distribution is unlimited.

Destruction Notice: None

Foreign Disclosure: FD1 - This training product has been reviewed by the training developers in coordination with the USA-IRL foreign disclosure officer. This training product can be used to instruct international military students from all approved countries without restrictions.

Conditions: In a tactical environment, provided with a battalion level OPORD, higher command religious support plan, general office supplies and a requirement to extract pertinent information from plans or orders to provide information on the battalion UMT's religious support plan. This task should not be trained in MOPP 4.

Standards: Extract pertinent information from plans or orders to the UMT religious support operations within an OPLAN/OPORD. Information may include but is not limited to the commander's intent for religious support by phase, date and time of deployment, units deploying, number of personnel in each unit, low density faith traditions in unit, applicable maps and overlays, call sign and frequency and METT-TC and PMESII-PT requirements IAW ATP 1-05.01 using the Go/No-Go Checklist without error.

Special Conditions: None

Safety Risk: Low

MOPP 4: Never

Performance Steps

1. Identify religious support requirements from the OPORD obtained from the battalion S3:

- a. List the religious support priorities of the unit based on the role it will have in the upcoming operation, i.e., main effort, supporting element.
- b. Needs "per phase" of Soldiers and situation, i.e., encouragement or inspiration; worship or faith empowering; caring for wounded/dying; consoling; pastoral counseling; low density faith traditions, and advice to commander regarding both internal and external advisement.
- c. Specified, essential, and implied tasks.
- d. Logistics support plan and medical support plan.

2. Assemble information for the Running Estimate:

a. Extract as much informational as possible on the following: date and time of deployment, units deploying, number of personnel in each unit, applicable maps and overlays, call signs and frequencies, METT-TC (mission, enemy, terrain and weather, troops and support available, time available and civilian considerations), PMESII-PT (political, military, economic, social, information, infrastructure, physical environment, and time) and any special requirements. (by phase if applicable)

b. Acquire the printed report of religious preferences in your unit from the battalion S1 to identify the RS requirements, i.e., types of worship service(s) including low density religious traditions; and individual Soldier religious support like special rations.

- c. Higher UMT or chaplain section religious support plan (RSP) and similar technical information needed for staff planning/tactical considerations.
- d. Composite Risk Management assessment for various ministry needs and opportunities.
- e. Transportation means and route planning.
- f. UMT location (by phase). Ensure coordination of UMT religious support planning into unit mission planning.
- g. Specified, essential and implied tasks.

3. Maintain the Unit Ministry Team's priorities:

a. UMT Table of Organization and Equipment (TOE) equipment, weapon, ecclesiastical supplies, vehicle, tents, camouflage sets, computer, and communication equipment.

b. Good communication and nested religious support plans with higher UMT or chaplain section.

c. UMT reporting procedures/requirements. (To who; how often; what; how sent?)

d. Literature and faith symbol needs such as: religious educational and inspirational materials, sacred texts, various prayer books, Book of Mormon, rosaries, etc.

e. Personal, spiritual plan for renewal and fellowship.

f. Specified, essential and implied tasks.

4. Record the Commander's intent for religious support to the operation:

a. Write down the commander's expectations for the UMT during all phases of the operation. (Frequency of services, visits, and updates.)

b. Ensure religious support priorities are meeting commander's intent.

c. Identify possible internal and external advisement that the mission may require.

5. Record the information you have assembled in order to contribute it to the chaplain's running estimate.

(Asterisks indicates a leader performance step.)

Evaluation Guidance: Score the Soldier "GO" if all steps are passed. Score the Soldier "NO-GO" if any step is failed. If the Soldier fails any step, show what was done wrong and how to do it correctly.

Evaluation Preparation: Ensure that all materials, parts, manuals, forms and equipment (or appropriate substitutions) required in the condition statement are available to the Soldier.

PERFORMANCE MEASURES	GO	NO-GO	N/A
1. Identified religious support requirements from the OPORD obtained from the battalion S3			
2. Assembled information for the Running Estimate.			
3. Maintained the Unit Ministry Team's priorities.			
4. Recorded the Commander's intent for RS to the operation.			
5. Recorded the information you have assembled in order to contribute it to the chaplain's running estimate.

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to the current Environmental Considerations manual and the current GTA Environmental-related Risk Assessment card. Environmental protection is a continual process. Always be alert to ways to protect our environment and reduce waste.

Safety: In a training environment, leaders must perform a risk assessment in accordance with current Risk Management Doctrine. Leaders will complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW current CBRN doctrine. Everyone is responsible for safety. A thorough risk assessment must be completed prior to every mission or operation.
