

Training and Evaluation Outline Report

Task Number: 07-6-1043

Task Title: Conduct Non-Combatant Evacuation (Battalion - Brigade)

Distribution Restriction: Approved for public release; distribution is unlimited.

Destruction Notice: None

Foreign Disclosure: FD1 - This training product has been reviewed by the training developers in coordination with the MCoE G2 foreign disclosure officer. This training product can be used to instruct international military students from all approved countries without restrictions.

Supporting Reference(s):

Step Number	Reference ID	Reference Name	Required	Primary
	ADRP 3-07	Stability	Yes	No
	FM 3-90.6	Brigade Combat Team	Yes	No
	JP 3-68	Noncombatant Evacuation Operations	Yes	Yes

Condition: The Brigade Combat Team (BCT) or Battalion (BN)) is conducting operations independently or as part of a higher headquarters (HQ) and has received an operation order (OPORD) or fragmentary order (FRAGORD) to provide personnel and support to conduct a noncombatant evacuation of US personnel in a semi-permissive environment... Plans for the evacuation are on hand at the embassy. Sufficient maps for the operation are available. Communication between the US Embassy and the prospective evacuees is unreliable and notification of all evacuees is not assured. Civil war and/or the threat of invasion from another country have placed the host nation in a position where they cannot guarantee either the protection of the evacuees or noninterference with the evacuation force. The unit is provided guidance by the Rules of Engagement (ROE). It may also have Mission Instructions, such as a peace mandate, Terms of Reference, and Status of Forces Agreement (SOFA). Coalition forces, noncombatants, government agencies, nongovernment organizations, and local and international media may be in the operational environment (OE). Some iterations should be performed in an IED environment.

This task should not be trained in MOPP 4.

Standard: The BCT /BN performs non-combatant evacuation plan in accordance with (IAW) the US Embassy's emergency evacuation plan for the country. The advance party coordinates with the US Embassy and host nation officials and prepares the evacuation site. The main body receives interpreters and information updates from the advance party. The evacuation control center conducts operations at the evacuation site. All communication and reporting is IAW applicable standard operating procedures (SOP). The BCT/BN complies with the ROE. Collateral damage is kept to a minimum.

Safety Risk: Low

Task Statements

Cue: Received an operation order (OPORD) or fragmentary order (FRAGORD) to provide personnel and support to conduct a noncombatant evacuation of US personnel in a semi-permissive environment.

DANGER
None

WARNING

None

CAUTION

None

Remarks: None

Notes: None

TASK STEPS

- * 1. PLAN - BCT/BN leaders gain and/or maintain situational understanding (SU) using available communications equipment, maps, intelligence summaries, situation reports (SITREPs), and other available information sources. Intelligence sources include human intelligence (HUMINT), signal intelligence (SIGINT), and imagery intelligence (IMINT) to include unmanned aircraft systems (UASs) and unattended ground systems (UGSs).
- * 2. BCT/BN commander and staff receive an order or anticipate a new mission to provide environmental assistance and begin the military decision-making process (MDMP). (Refer to task 71-8-5110, Plan Operations using the Military Decision Making Process [Battalion – Corps] for further details).
- * 3. The commander plans a noncombatant evacuation. The commander plans the evacuation IAW guidance and plans from the US Embassy and the JTF (Refer to task 071-900-0001, Prepare an Operation Plan for Publication).
- 4. The advance party performs ground coordination with Embassy personnel, JFT personnel, and host nation officials.
- 5. PREPARE - The advance party prepares to conduct non-combatant evacuation.
 - a. Advance party receives most current update on the situation.
 - b. Advance party exchange LNOs, as required.
 - c. Advance party performs quartering party operations for the main body.
 - d. Advance party establishes and maintains communications with the main body and updates them on new information as received.
 - e. Advance party updates the main body about the most current information upon its arrival.
- 6. EXECUTE - The main body arrives at the evacuation site.
 - a. Secure the evacuation site, as required.
 - b. Perform protection warfighting operations (Refer to task 171-300-0045, Establish Operational Security Measures).
 - c. Receive the attachments of interpreters, as required.
 - d. Receive host nation trucks and drivers, if required.
 - e. Perform Preventive Maintenance Checks and Services (PMCS) and rehearsals, as required.
 - f. Perform reconnaissance, situation permitting.
- 7. The BCT/BN(-) moves to the evacuee assembly areas (AA) by air or ground.
 - a. Maintain security and ensure the force is not surprised.
 - b. The force arrives at the evacuee assembly on time IAW the BCT/BN OPORD.
 - c. Establish security at each evacuee AA.
- 8. The BCT/BN(-) links up with the evacuees at the evacuee assembly areas.
 - a. Identify evacuees and check off from the State Department's evacuee list.

b. Evacuee assembly area commanders check to ensure that evacuees have the amount of baggage authorized in the Embassy Evacuee Plan.

c. Immediate needs of the evacuees are being met (medical, food, shelter, if required).

d. Employ search teams to seek missing evacuees dependent upon mission variables of Mission, Enemy, Terrain and weather, Troops and support available, Time available and Civil considerations (METT-TC) and the US Embassy requirements.

9. Move evacuees to the marshaling areas by air or ground.

10. Withdraw the evacuation force.

11. Process evacuees in the marshaling area for movement to the designated intermediate-staging base.

a. The evacuation control center processes evacuees.

b. Provide food, shelter, medical support, legal support, and chaplain support for the evacuees.

c. Inspect baggage and personnel for contraband IAW the State Department's directives.

d. Maintain security at the marshaling area.

12. Transport evacuees by boat or helicopter to US Naval vessels offshore or by air to the designated intermediate staging base.

13. The BCT/BN consolidates and reorganizes as necessary.

14. BCT/BN commander and staff monitor and assess the non-combatant evacuation operation.

* 15. BCT/BN commander reports status of evacuation to higher HQs

(Asterisks indicates a leader performance step.)

PERFORMANCE MEASURES	GO	NO-GO	N/A
1. BCT/BN leaders gained and/or maintained situational understanding (SU).			
2. BCT/BN commander and staff received an order or anticipated a new mission to provide environmental assistance and began the military decision-making process (MDMP).			
3. The commander planned a noncombatant evacuation. The commander planned the evacuation IAW guidance and plans from the US Embassy and the JTF.			
4. The advance party performed ground coordination with Embassy personnel, JTF personnel, and host nation officials.			
5. The main body arrived at the evacuation site.			
6. BCT/BN(-) moved to the evacuee assembly areas (AA) by air or ground.			
7. BCT/BN linked up with the evacuees at the evacuee assembly areas.			
8. Moved evacuees to the marshaling areas by air or ground.			
9. Withdrew the evacuation force.			
10. Processed evacuees in the marshaling area for movement to the designated intermediate-staging base.			
11. Transported evacuees by boat or helicopter to US Naval vessels offshore or by air to the designated intermediate staging base.			
12. The BCT/BN consolidated and reorganized as necessary.			
13. BCT/BN commander and staff monitored and assessed the non-combatant evacuation operation			
14. BCT/BN commander reported status of evacuation to higher HQs.

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to FM 3-34.5 Environmental Considerations and GTA 05-08-002 ENVIRONMENTAL-RELATED RISK ASSESSMENT. .

Safety: In a training environment, leaders must perform a risk assessment in accordance with ATP 5-19, Risk Management. Leaders will complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW FM 3-11.4, Multiservice Tactics, Techniques, and Procedures for Nuclear, Biological, and Chemical (NBC) Protection, FM 3-11.5, Multiservice Tactics, Techniques, and Procedures for Chemical, Biological, Radiological, and Nuclear Decontamination. .
