

ART 2.1 Intelligence Support to Force Generation

Intelligence support to force generation is the task of generating intelligence knowledge concerning an area of interest, facilitating future intelligence operations, and tailoring the force. It includes establishing intelligence communication and knowledge management architectures. These architectures enable collaboration among strategic, operational, and tactical intelligence organizations in the following areas—intelligence reach; collaborative analysis; data storage; processing and analysis; and intelligence production support to force generation consists of five tasks. (FM 2-0) (USAICoE)

NO.	Scale	Measure
-----	-------	---------

Supporting Collective Tasks:

Task No.	Title	Proponent	Echelon
44-9-8067	Acquire and Communicate Operational Level Information and Maintain Status	44 - Air Defense (Collective)	Echelons Above Corps
63-7-2631	Provide Intelligence Support	63 - Multifunctional Logistics (Collective)	Division (TOE)
