WARNING

None

CAUTION

None

Remarks: None

Notes: None

Performance Steps

1. Complete a spiritual assessment inventory.
2. Establish an accountability relationship regarding spiritual formation with one or more individuals (family members, friends, spiritual mentor, spiritual director or supervisor).
3. Develop a 90-day plan (to be perpetuated) to restore/refresh and sustain your spiritual resiliency.
4. Implement the plan.

(Asterisks indicates a leader performance step.)

Evaluation Guidance: Soldiers should be evaluated based on their ability to perform the task in accordance with the performance measures listed in this manual. Soldiers who miss any performance measure should be retrained and reevaluated.

Evaluation Preparation:

PERFORMANCE MEASURES	GO	NO-GO	N/A
1. Conducted a spiritual assessment inventory			
2. Identified and coordinated with an accountability partner(s)

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to the current Environmental Considerations manual and the current GTA Environmental-related Risk Assessment card. Environmental protection is a continual process. Always be alert to ways to protect our environmental and reduce waste.

Safety: In a training environment, leaders must perform a risk assessment in accordance with ATP 5-19, Risk Management. Leaders will complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW FM 3-11.4, Multiservice Tactics, Techniques, and Procedures for Nuclear, Biological, and Chemical (NBC) Protection, FM 3-11.5, Multiservice Tactics, Techniques, and Procedures for Chemical, Biological, Radiological, and Nuclear Decontamination. Everyone is responsible for safety. A thorough risk assessment must be completed prior to every mission or operation.
