

805D-56A-7506
Determine UMT Training Requirements
Status: Approved

Distribution Restriction: Approved for public release; distribution is unlimited.

Destruction Notice: None

Foreign Disclosure: FD1 - This training product has been reviewed by the training developers in coordination with the U.S. Army Chaplain Center and School foreign disclosure officer. This training product can be used to instruct international military students from all approved countries without restrictions.

Conditions: Given a non-tactical environment, training guidance from the Chief of Chaplains, MACOM, and commanders; chaplain and chaplain assistant task lists; assessment data on battalion UMT performance; unit training calendars; and access to reference material. Some iterations of this task should be performed in MOPP 4.

Standards: Determine training needs for the UMT and provide and or conduct when necessary the required and planned training for UMT members.

Special Conditions: None

Safety Risk: Low

MOPP 4: Sometimes

Task Statements

None

CAUTION

None

Remarks: None

Notes: None

Performance Steps

1. Identify UMT training required by guidance and performance assessment.
2. Identify which task must be trained at the unit level and which tasks must be trained by the UMT.
3. Determine the appropriate trainer and method of identified UMT training requirements.
4. Coordinate for all requirements to conduct training (facilities, equipment, personnel, and training support materials).
5. Review all lesson plans and training materials.
6. Ensure attendance and participation by all UMT members being trained.
7. Conduct or provide the training and evaluate the UMT members.
8. Conduct AR after the training event.

(Asterisks indicates a leader performance step.)

Evaluation Guidance: Soldiers should be evaluated based on their ability to perform the tasks in accordance with the performance measures listed in this manual. Soldiers who miss any performance measure should be retrained and reevaluated.

Evaluation Preparation:

PERFORMANCE MEASURES	GO	NO-GO	N/A
1. Identify required training needs of all UMT members.			
2. Identified level at which each task will be trained.			
3. Determined the appropriate trainer and method.			
4. Coordinated for all requirements to conduct training.			
5. Review all lesson plans and training materials.			
6. Ensured attendance and participation by all UMT members being trained.			
7. Conducted or provided the training and evaluated the UMT members.			
8. Conduct AAR after each training event.

No materiel items specified				

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to the current Environmental Considerations manual and the current

GTA Environmental-related Risk Assessment card. Environmental protection is a continual process. Always be alert to ways to protect our environment and reduce waste.

Safety: In a training environment, leaders must perform a risk assessment in accordance with ATP 5-19, Risk Management. Leaders will complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW FM 3-11.4, Multiservice Tactics, Techniques, and Procedures for Nuclear, Biological, and Chemical (NBC) Protection, FM 3-11.5, Multiservice Tactics, Techniques, and Procedures for Chemical, Biological, Radiological, and Nuclear Decontamination. Everyone is responsible for safety. A thorough risk assessment must be completed prior to every mission or operation.

Prerequisite Individual Tasks : None
