

ART 5.9.3.3 Perform Host-Nation Electromagnetic Coordination

Each nation has sovereignty over its electromagnetic spectrum. The use of the electromagnetic spectrum must be negotiated on a case-by-case basis. Approval to transmit within a country is based on the sovereignty of that country and their regulatory processes that evaluate the Department of Defense request for use of spectrum perceived potential for electromagnetic interference to local receivers. Use of military or commercial electromagnetic spectrum systems in host nations requires coordination and negotiation that result in formal approvals and certifications. (JP 6-0) (USJFCOM JWFC)

| NO. | Scale | Measure |
|-----|---------|---|
| 01 | Yes/No | Unit established relationship with host-nation agency responsible for radio frequency spectrum. |
| 02 | Yes/No | Commander was informed of host-nation restrictions on spectrum use. |
| 03 | Time | To process frequency request. |
| 04 | Time | To obtain frequency approval. |
| 05 | Percent | Of frequency requests filled. |
| 06 | Percent | Of mission degradation due to inadequate spectrum. |
