

Summary Report for Individual Task
101-92M-4707
Coordinate Establishment of a Mortuary Affairs Collection Point.
Status: Approved

Distribution Restriction: Approved for public release; distribution is unlimited.

Destruction Notice: None

Foreign Disclosure: FD6 - This product/publication has been reviewed by the product developers in coordination with the Fort Lee, VA foreign disclosure authority. This product is releasable to students from foreign countries on a case-by-case basis.

Condition: In a classroom environment with an approved mortuary affairs (MA) concept of operation, stated commander's intent, policies, JP 4-06, TM 10-4110-263-10, and FM 4-20.64. This task should not be trained in MOPP 4.

Standard: Coordinate the establishment of a Mortuary Affairs Collection Point (MACP)/Mobile Integrated Remains Collection System (MIRCS), which includes all operational requirements to transport, set-up, and operate the MACP/MIRCS in an operational environment. Utilizing guidance from the mortuary affairs concept of operation, commanders intent, policies, JP 4-06, TM 10-4110-263-10, and FM 4-20.64.

Special Condition: None

Safety Risk: Low

MOPP 4: Never

DANGER
None

WARNING
None

CAUTION
None

Remarks: None

Notes: None

Performance Steps

1. Determine site selection criteria for direct support.
 - a. Ensure proximity to a main supply route to facilitate delivery and evacuation of human remains.
 - b. Ensure clear marking of mortuary affairs collection point to aid combat units in evacuating human remains.
 - c. Verify accessibility to additional mobile refrigeration containers.
 - d. Ensure proximity to life support and/or personnel services, but out of sight of medical treatment facilities.
 - e. Ensure proximity to tactical communications support.
 - f. Ensure accessibility to water/fuel points.
 - g. Ensure accessibility to explosive ordnance disposal personnel.
 - h. Ensure accessibility to maintenance personnel.
 - i. Ensure accessibility to combat occupational stress control teams, religious support team, and occupational health/preventive medicine.
2. Determine site selection criteria for general support.
 - a. Verify proximity to a main supply route.
 - b. Ensure ability to build a road network on site or to use an existing road network.
 - c. Ensure ability to build a helipad on site or to use an existing helipad.
 - d. Ensure proximity to engineer support.
 - e. Ensure proximity to a landing strip or airport.
 - f. Ensure proximity to life support and/or personnel services.
 - g. Ensure proximity to tactical communications support.
 - h. Verify accessibility to additional refrigeration containers.
 - i. Ensure accessibility to water/fuel points or ability to schedule deliveries.
 - j. Ensure accessibility to explosive ordnance disposal personnel.
 - k. Ensure accessibility to maintenance personnel.
 - l. Ensure proximity to nearest medical treatment facility.
 - m. Ensure accessibility to combat occupational stress control team, religious support team, and occupational health/preventive medicine.
 - n. Ensure accessibility to sleeping quarters, hygiene and laundry facilities.

- o. Verify ability to coordinate removal of biohazard waste (waste water/solid waste) on a regular basis.
- p. Verify ability to screen area using natural screening or screening material.

(Asterisks indicates a leader performance step.)

Evaluation Guidance: Score the NCO a Go if they successfully complete all steps. Score the NCO a NO-GO if they fail to complete any step. If the NCO fails any step, show what they did wrong and how to do it correctly.

Evaluation Preparation: Use a predetermined site. Provide the NCO with required personnel and equipment to perform the task. If using mannequins for training purposes, ensure handling as if they are actual fatalities.

PERFORMANCE MEASURES	GO	NO-GO	N/A
1. Determined site selection criteria for direct support.			
a. Ensured proximity to a main supply route to facilitate delivery and evacuation of human remains.			
b. Ensured clear marking of mortuary affairs collection point to aid combat units in evacuating human remains.			
c. Verified accessibility to additional mobile refrigeration containers.			
d. Ensured proximity to life support and/or personnel services, but out of sight of medical treatment facilities.			
e. Ensured proximity to tactical communications support.			
f. Ensured accessibility to water/fuel points.			
g. Ensured accessibility to explosive ordnance disposal personnel.			
h. Ensured accessibility to maintenance personnel.			
i. Ensured accessibility to combat occupational stress control teams, religious support team, and occupational health/preventive medicine.			
2. Determined site selection criteria for general support.			
a. Verified proximity to a main supply route.			
b. Ensured ability to build a road network on site or to use an existing road network.			
c. Ensured ability to build a helipad on site or to use an existing helipad.			
d. Ensured proximity to engineer support.			
e. Ensured proximity to a landing strip or airport.			
f. Ensured proximity to life support and/or personnel services.			
g. Ensured proximity to tactical communications support.			
h. Verified accessibility to additional refrigeration containers.			
i. Ensured accessibility to water/fuel points or ability to schedule deliveries.			
j. Ensured accessibility to explosive ordnance disposal personnel.			
k. Ensured accessibility to maintenance personnel.			
l. Ensured proximity to nearest medical treatment facility.			
m. Ensured accessibility to combat occupational stress control team, religious support team, and occupational health/preventive medicine.			
n. Ensured accessibility to sleeping quarters, hygiene and laundry facilities.			
o. Verified ability to coordinate removal of biohazard waste (waste water/solid waste) on a regular basis.			
p. Verified ability to screen area using natural screening or screening material.

	TM 10-4110-263-10	OPERATOR'S MANUAL FOR MOBILE INTEGRATED REMAINS COLLECTION SYSTEM (MIRCS) (NSN 4110-01-534-7675) (NSN 4110-01-534-7676)	No	No

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to FM 3-34.5 Environmental Considerations and GTA 05-08-002 ENVIRONMENTAL-RELATED RISK ASSESSMENT.

Safety: In a training environment, leaders must perform a risk assessment in accordance with ATP 5-19, Risk Management. Leaders will complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW FM 3-11.4, Multiservice Tactics, Techniques, and Procedures for Nuclear, Biological, and Chemical (NBC) Protection, FM 3-11.5, Multiservice Tactics, Techniques, and Procedures for Chemical, Biological, Radiological, and Nuclear Decontamination.
