

ART 6.9.4 Conduct Chemical, Biological, Radiological And Nuclear Consequence Management

Chemical, biological, radiological, and nuclear (CBRN) consequence management (CM) comprises those CM actions taken to plan, prepare for, respond to, and recover from CBRN incidents that require force and resource allocation beyond passive defense capabilities. (FM 3-11.21) (USACBRNS)

NO.	Scale	Measure
01	Yes/No	Unit ensured Department of Defense plans and policies for CM operations were in place.
02	Time	To coordinate emergency response plan with civil authorities.
03	Time	To identify relevant participants and determine roles and responsibilities via approved exercise.
04	Time	To develop options for decision makers.
05	Time	To assess consequences and facilitate follow-on support.
06	Time	To deploy reaction teams.
07	Time	To establish plans to distribute medicines and medical supplies when protectively isolated, fearful of the public, or concerned for security.
08	Time	To develop specific entry and exit plans in concert with local, state, and federal response plans.
09	Time	To establish coordination, communication, and contingency plans for joint and government or industry via approved exercises.
10	Time	To establish mechanisms and processes for sharing information on stockpiles and surge capacities via approved exercises.
11	Time	To establish alert and notification mechanisms via approved exercises.
12	Percent	Of forwarded actions, with developed protections against failure.
13	Percent	Of medical CM teams were available.
