

ART 2.3.5.1 Establish a Mission Intelligence Briefing and Debriefing Program

Commanders establish, support, and allocate appropriate resources for a mission briefing and debriefing program. Conducting battle updates and after action reviews are separate tasks from the mission briefing and debriefing program. The intelligence officer develops a mission intelligence briefing plan and complementary debriefing plan to support the commander's program. Soldiers receive a mission intelligence briefing before executing a patrol or similar operation. The briefing sensitizes Soldiers to specific information and reporting requirements, information gaps, and unique mission requirements. The mission intelligence briefings and debriefings generally follow the format of a mission briefing: review the route traveled, collection objectives of the patrol, and methods employed. The debriefing program captures the specific information requirements the patrol was to collect and any additional information and observations the patrol made concerning the operational environment. It also collects any fliers, pamphlets, media, or pictures the patrol found or obtained. (FM 2-0) (USAICoE)
