**Subject Area 1. Unassigned**

**Target Audience:** SC 88M1O. Operates wheel vehicles and equipment over varied terrain and roadways for support of combat operations. Manages entrucking and detrucking of personnel being transported. Oversees and checks proper loading and unloading of cargo on vehicles and trailers. Secures cargo against inclement weather, pilferage, and damage. Operates vehicle component Material Handling Equipment (MHE), as required. Employs land navigation techniques. Must be knowledgeable of tactical automated communications systems and weapons when they are mounted on the vehicle. Corrects and reports all vehicle deficiencies; supports mechanics where necessary. Prepare vehicles for movement/shipment by air, rail, or vessel.

Total Number of Tasks: 40

- **Training Domain/Location Column** – identifies the training location and the Leadership Domain (Institutional, Operational, or Self-Development) where the task is first trained to soldier training publications standards. If the task is first trained to standard in the unit, the word “OP” will be in this column. If the task is first trained to standard in the training base, it will identify, by brevity code (S-D, INST), the resident course where the task was taught.

- **Sustainment Training Frequency Column** – indicates the recommended frequency at which the tasks should be trained to ensure soldiers maintain task proficiency.

- **Sustainment Training Skill Level Column** – lists the skill levels of the MOS for which soldiers must receive sustainment training to ensure they maintain proficiency to soldier’s manual standards.
