

150-MC-0002
Validate the Intelligence Warfighting Function Staff
Status: Approved

Security Classification: U - Unclassified

Distribution Restriction: Approved for public release; distribution is unlimited.

Destruction Notice: None

Foreign Disclosure: FD1 - This training product has been reviewed by the training developers in coordination with the Fort Leavenworth, KS foreign disclosure officer. This training product can be used to instruct international military students from all approved countries without restrictions.

Conditions: The staff officer receives new members to the staff, is new to the staff, or must realign the staff and/or command post for operational reasons. The staff officer receives guidance from the commander on staff organization and command posts for operations. The commander issues guidance on coordinating the intelligence warfighting function in an operational environment that is dynamic, complex, and has a hybrid threat that contests unit objectives in all five domains (air, land, sea, space, and cyberspace) and the information environment (IE) throughout. The threat will maintain constant contact with the unit in multiple domains and all eight operational variables of PMESII-PT are present for brigade and above, four or more for battalions. The order from higher headquarters includes all applicable overlays and or graphics, area of operation (AO) boundaries, control measures, and criteria for subsequent tactical actions. All necessary personnel and equipment are available. The unit is task organized with necessary units and reinforced with assets from higher to accomplish assigned task. The unit has communications with subordinate and adjacent units and higher headquarters. The commander has organized the four components of their command and control system to support decision making, facilitate communication, and conduct operations.

Environment: Some iterations of this task should be performed with degraded command and control networks, degraded conditions in the electromagnetic spectrum, and/or with degraded, denied, and disrupted space operations environment (D3SOE). Some iterations of this task should be performed in MOPP 4.

Standards: The staff officer coordinates the intelligence warfighting function staff by verifying adherence to the standard operating procedures to meet the commander's intent, orders from higher, and operational requirements. The coordination allows for 100% integration of running estimates that build the common operational picture. Coordination is conducted with 100% adherence with the commander's intent, orders from higher headquarters, ADP 5-0, established timelines and standard operating procedures while utilizing the GO & NO-GO criteria.

Special Conditions: None

Safety Risk: Low

MOPP 4: Sometimes

Task Statements

Cue: The commander issues guidance on coordinating the intelligence warfighting function staff.

DANGER

Leaders have an inherent responsibility to conduct Composite Risk Management to ensure the safety of all Soldiers and promote mission accomplishment.

WARNING

Composite Risk Management is the Army's primary decision-making process to identify hazards, reduce risk, and prevent both accidental and tactical loss. All Soldiers have the responsibility to learn and understand the risks associated with this task.

CAUTION

Identifying hazards and controlling risks across the full spectrum of Army functions, operations, and activities is the responsibility of all Soldiers.

Remarks: None

Notes: The term 'staff officer' refers to the chief of staff (COS), executive officer (XO), deputy commanding officer (DCO), and/or another designated officer as directed by the commander.

Note 2: This task is a subordinate task to 150-MC-0000 (Organize the Command and Control WFF) in which the staff officer conducts the initial duties of the COS, XO, and/or DCO. Before executing this task the staff officer should execute task 150-MC-0000.

Note 3: The commander may also use this task to certify that the staff can coordinate the intelligence warfighting function when conducting the certification in command and control training table VI.

Note 4: "Intelligence warfighting function staff" includes any Soldier on the staff that doctrinally or by SOP contributes to achieving the steps/measures below."

Performance Steps

1. The staff officer confirms proper manning of the intelligence warfighting function staff in accordance with the commander's intent, orders from higher, operational requirements, and unit manning rosters.
2. The staff officer confirms that the intelligence warfighting function staff conducts basic initial staff duties and assumes responsibilities to include:
 - a. Informing the commander of all mission related staff tasks.
 - b. Developing and maintaining running estimates.
 - c. Providing recommendations.
 - d. Preparing plans, orders, and other staff writing.
 - e. Assessing operations.
3. The staff officer organizes, manages, monitors, trains, and inspects the intelligence warfighting function staff to ensure it is capable of:
 - a. Coordinating intelligence support to force generation by providing intelligence readiness, establishing intelligence architecture, providing intelligence overwatch, generating intelligence knowledge, and tailoring the intelligence force, coordination includes:
 - (1) Developing intelligence readiness that provides baseline knowledge of multiple potential threats and operational environments.
 - (2) Establishing an intelligence architecture that includes complex and technical issues that include hardware, software, communications, communications security materials, network classification, technicians, database access, liaison officers, training, and funding.
 - (3) Providing intelligence overwatch by creating standing, fixed analytical intelligence capabilities that provide dedicated intelligence support to committed maneuver units.
 - (4) Generating intelligence knowledge that provides the relevant knowledge required regarding an operational environment for the conduct of operations.
 - (5) Tailoring the intelligence force based on mission analysis, allocate intelligence resources obtained through the generating force to support the commander's intent, guidance, and mission objectives.
 - b. Supporting situational understanding providing information and intelligence to commanders so commanders can clearly understand the force's current state with relation to the threat and other aspects of the area of operations.
 - (1) Performing intelligence preparation of the battlefield through a systematic process of analyzing and visualizing the operational variables in relation to the threat, terrain, weather, and civil considerations of the mission variables in an area of interest to determine their effect on operations.
 - (2) Performing situation development through a process of analyzing information and producing current intelligence concerning the portions of the mission variables within the area of operations before and during operations.
 - (3) Providing intelligence support to protection that supports control measures the command takes to remain viable and functional by protecting itself from the effects of threat activities.

Note: Providing intelligence support also provides intelligence that supports recovery from threat actions. This step also supports the protection warfighting function and is linked to antiterrorism and homeland security.
 - (4) Providing tactical intelligence overwatch by creating standing, fixed analytical intelligence capabilities that provide dedicated intelligence support to committed maneuver units.
 - (5) Collecting police intelligence by collecting information using police activities for analysis, production, and dissemination to enhance situational understanding, protection, civil control, and law enforcement.
 - (6) Providing intelligence support to civil affairs activities by collecting and providing information and intelligence products concerning civil considerations in support of civil affairs operations.
 - c. Conducting information collection that synchronizes and integrates the planning and employment of sensors and assets as well as the processing, exploitation, and dissemination systems in direct support of current and future operations.
 - (1) Planning requirements and assessing collection analyzing requirements by:
 - Evaluating available assets (internal and external).
 - Recommending to the operations staff taskings for information collection assets.
 - Submitting requests for information for adjacent and higher collection support.
 - Assessing the effectiveness of the information collection plan.

(2) Synchronizing information collection that integrates collection assets through a deliberate and coordinated effort across all warfighting functions.

(3) Executing collection that focuses on requirements tied to the execution of tactical missions, such as reconnaissance, surveillance, security, and intelligence operations, based on the commander's critical information requirements.

- (4) Conducting intelligence-related missions and operations to include:
- Mission and debriefing program.
 - Intelligence coordination.
 - Establish and maintain technical intelligence authority and channels.
 - Intelligence support to personnel recovery.
 - Facilitate conduct of reconnaissance and surveillance.

d. Providing intelligence support to targeting and information-related capabilities by providing the commander information and intelligence support for targeting through lethal and nonlethal actions.

(1) Providing intelligence support to targeting by providing the fire support coordinator, information operations officer, and electronic warfare officer, and other staff officers with information and intelligence for targeting the threat's forces and systems with direct and indirect fires to create lethal and nonlethal effects.

(2) Providing intelligence support to information-related capabilities that includes intelligence support to the planning, preparation, and execution of information operations, cybersecurity, operations security, and military deception, as well as assessing the effects of those operations.

(3) Providing intelligence support to combat assessment that includes the assessment activity of the operations process and targeting processes.

Note: The commander uses combat assessment to determine if targeting actions have met the attack guidance and if reattack is necessary to perform essential fires tasks and achieve the commander's intent for fires. The staff officer determines how combat assessment relates to specific targets by completing battle damage, physical damage, functional damage, and target system assessments.

4. The staff officer with input from the commander and staff continually assesses the intelligence warfighting function and modifies the function as necessary.

(Asterisks indicates a leader performance step.)

Evaluation Guidance: Score the Soldier GO if he/she passes all performance measures. Score the Soldier NO-GO if Soldier fails any performance measure. If the Soldier scores NO-GO, show the Soldier why he/she failed and show the Soldier how to perform the measure correctly.

Evaluation Preparation: Brief the Soldier: Explain expectations to the Soldier by reviewing the task standards. Stress to the Soldier the importance of observing all cautions and warnings to avoid injury to personnel and, if applicable, damage to equipment.

| PERFORMANCE MEASURES | GO | NO-GO | N/A |
|--|----|-------|-----|
| 1. The staff officer confirmed proper manning of the intelligence warfighting function staff in accordance with the commander's intent, orders from higher, operational requirements, and unit manning rosters. | | | |
| 2. The staff officer confirmed that the intelligence warfighting function staff conducted basic initial staff duties and assumed responsibilities: <ul style="list-style-type: none"> • Informed the commander of all mission related staff tasks. • Developed and maintained running estimates. • Provided recommendations. • Prepared plans, orders, and other staff writing. • Assessed operations. | | | |
| 3. The staff officer organized, managed, monitored, trained, and inspected the intelligence warfighting function staff to ensure they: <ul style="list-style-type: none"> • Coordinated intelligence support to force generation by providing intelligence readiness, established intelligence architecture, provided intelligence overwatch, generated intelligence knowledge, and tailored the intelligence force. • Supported situational understanding providing information and intelligence to commanders so commanders clearly understood the force's current state with relation to the threat and other aspects of the area of operations. • Conducted information collection that synchronized and integrated the planning and employment of sensors and assets as well as the processing, exploitation, and dissemination systems in direct support of current and future operations. • Provided intelligence support to targeting and information-related capabilities by providing the commander information and intelligence support for targeting through lethal and nonlethal actions. | | | |
| 4. The staff officer with input from the commander and staff continually assessed the intelligence warfighting function and modified the function as necessary. | | | |

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to the current Environmental Considerations manual and the current GTA Environmental-related Risk Assessment card.

Safety: In a training environment, leaders must perform a risk assessment in accordance with current Risk Management Doctrine. Leaders will complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW current CBRN doctrine.

Prerequisite Individual Tasks :

| Task Number | Title | Proponent | Status |
|--------------|--|------------------------------------|----------|
| 150-MC-0000 | Organize the Command and Control System as the Staff Officer | 150 - Mission Command (Individual) | Approved |
| 150-LDR-5001 | Develop Cohesive Teams Through Mutual Trust | 150 - Mission Command (Individual) | Approved |

Supporting Individual Tasks :

| Task Number | Title | Proponent | Status |
|--------------|---|------------------------------------|----------|
| 301-50F-2604 | Direct Production of an Intelligence Annex | 301 - Intelligence (Individual) | Approved |
| 301-35D-4401 | Direct Intelligence Section Activities | 301 - Intelligence (Individual) | Approved |
| 150-LDR-5001 | Develop Cohesive Teams Through Mutual Trust | 150 - Mission Command (Individual) | Approved |

Supported Individual Tasks : None

Supported Collective Tasks : None

Knowledges :

| Knowledge ID | Knowledge Name |
|---------------|--|
| 301-K-227 | What a priority intelligence requirement is. |
| 011-891K | knowledge of Tactical Operations Center operations |
| EW-K-0067 | Know the four steps of the Intelligence Preparation of the Battlefield (IPB) process |
| EW-K-0121 | Know the Military Decision Making Process (MDMP) |
| 031-K-627-091 | Knowledge of the Intelligence Preparation of the Battlefield (IPB) process |
| EW-K-0114 | Know the fundamentals of using Open Source Intelligence (OSINT) |
| 301-K-192 | The types of intelligence reports. |
| EW-K-0195 | Know the products required and produced during the military decision making process (MDMP) |
| 011-866K | knowledge of operations orders |

| | |
|--------------|--|
| 301-K-702 | Know what counterintelligence (CI) is. |
| EW-K-0269 | Know the terminology used in the operations process |
| EW-K-0379 | Know the principles of the joint intelligence preparation of the operational environment (JIPOE) process |
| 011-456K | Intelligence |
| 011-578K | knowledge of planning and execution of rear operations |
| K268 | Know Intelligence Capabilities |
| 011-1433K | knowledge of shop operations and inspections |
| 011-974K | knowledge of terrorism assessment and countermeasure operations |
| 301-K-315 | What the format of an intelligence surveillance plan is. |
| K-551-G-0052 | How to read and interpret an operations order |
| K270 | Know Intelligence Products |
| 301-K-696 | Know what all-source intelligence is. |
| 805C-K-0551 | Characteristics of Battlefield operations |
| 011-898K | knowledge of intelligence preparation of the battlefield |
| EW-K-0011 | Know Intelligence organizations and functions |
| K0542 | Basic knowledge of intelligence reporting |
| 301-K-266 | What an intelligence surveillance plan is. |
| 011-0108K | Intelligence information |
| K144 | Basic Understanding of Intelligence, Surveillance and Reconnaissance (ISR) |
| 907-K-0028 | Understand how to write an operations order |
| 011-1749K | Intelligence Collection Cycle |
| EW-K-0354 | Know the functions, limitations, and capabilities of human intelligence (HUMINT) and its relationship to electronic warfare (EW) |

Skills :

| Skill ID | Skill Name |
|-----------------|--|
| 011-717S | Integrate joint intelligence gathering assets |
| EW-S-0008 | Apply Intelligence disciplines |
| S0055 | Search intelligence link |
| 907-S-0018 | Write an operations order/plan |
| S0283 | Develop an operational plan utilizing the 5 paragraph operations order |
| EW-S-0070 | Implement the Military Decision Making Process (MDMP) |
| 011-514S | How to interface with the Tactical Operations Officer |
| 011-848S | how to conduct intelligence preparation of the battlefield |
| EW-S-0125 | Synchronize Electronic Warfare with intelligence staffs |
| 011-845S | how to perform intelligence operations |
| S0017 | Fill out intelligence reports |
| S0018 | Maintain intelligence journals |
| 907-S-0011 | Conduct an analysis of the area of operations |
| 301-S-68 | Identify specific intelligence requirements. |
| EW-S-0042 | Determine Electronic Warfare intelligence gaps |
| S2256 | Army leadership |

ICTL Data : None
