

ART 6.1.5 Plan Ballistic Missile Defense

Plan and coordinate protection of the homeland and operational forces from ballistic missile attack by direct defense and by destroying the enemy's missile capacity. Determine essential requirements to achieve mission accomplishment using ballistic missile defense weapons in a defensive role to defend, detect, defeat, deter, and protect. Centralized planning for missile defense includes the protection of operational forces in the combatant commander's area of responsibility and destroying ballistic missile platforms in flight. Missile defense operations include all forces and activities that support active defense, passive defense, and attack operations.

NO.	Scale	Measure
01	Yes/No	Unit planned ballistic missile defense.
02	Yes/No	Unit determined command and control for ground based missile defense.
03	Yes/No	Unit defined rules of engagement according to threat capability parameters and national security objectives.
04	Yes/No	Missile defense support was available to assist the staff elements.
05	Yes/No	Unit conducted detailed planning that maximizes Service capabilities.
06	Yes/No	Unit linked with the planning of other air and missile defense capabilities.
07	Yes/No	Defended assets list affected configuration of the ground missile defense system and its defensive task plans.
08	Time	To develop and coordinate combatant command's defended assets list.
09	Time	To allocate interceptors in a timely manner to defend the homeland and operational forces.
10	Time	To respond to reports of outages and degradation.
11	Percent	Degree which ongoing or planned operations adversely affected by threat defenses.
12	Number	Of available systems directed against declared threatening missile platforms.
