

Summary Report for Individual Task  
052-250-0035  
Correlate Environmental Considerations In Military Operations & Training  
Status: Approved

---

**Distribution Restriction:** Approved for public release; distribution is unlimited.

**Destruction Notice:** None

**Foreign Disclosure: FD5** - This product/publication has been reviewed by the product developers in coordination with the Fort Leonard Wood foreign disclosure authority. This product is releasable to students from all requesting foreign countries without restrictions.

**Condition:** Assigned as the Joint Engineer Officer in a deployed environment and given AR 200-1, International agreements, FGS, the Overseas Environmental Baseline Guidance Document and a Environmental Annex to an Operations Order. Standard MOPP 4 conditions do not exist for this task. See the MOPP 4 statement for specific conditions.

**Standard:** Identify three (3) the waste stream(s) disposal options for the Area of Operation. List the four (4) Key Players within the Joint and COCOM staff to assist with environmental issues.

**Special Condition:** None

**Safety Risk:** Low

**MOPP 4:** N/A

<b>Task Statements</b>
------------------------

**Cue:** Defense of nations must not be jeopardized through overzealous protection of the environment. As the joint Engineer, you are to develop a waste management plan for your A.O. while ensuring defense is maintained.

<b>DANGER</b>
None

<b>WARNING</b>
None

<b>CAUTION</b>
None

**Remarks:** None

**Notes:** Reference:  
DoD 4715.05-G, Overseas Environmental Baseline Guidance Document (OEBGD)  
[www.dtic.mil/whs/directives/corres/pdf/471505g.pdf](http://www.dtic.mil/whs/directives/corres/pdf/471505g.pdf)

## Performance Steps

1. Develop a waste management plan.
  - a. Apply the 6-step process to develop a waste management plan.
  - b. Facilitate subordinates planning.
  - c. Manage the execution of the waste management plan.
  - d. Assess the effectiveness of the plan and make changes as needed.
2. Identify the Key Players within the Joint and COCOM staffs.
3. Utilize the Environmental Baseline Survey and environmental media in construction and new basecamp site selection.
4. Identify the three (3) stages of the environmental survey process.
  - a. Initial Environmental Baseline Survey
  - b. Environmental Conditions Report
  - c. Base camp Transition/Closure

(Asterisks indicates a leader performance step.)

**Evaluation Guidance:** Score the Soldier GO if all performance measures are passed. Score the Soldier NO GO if any performance measure is failed. If the Soldier scores NO GO, show the Soldier what was done wrong and how to do it correctly, and retest as necessary.

**Evaluation Preparation:** Test this task in conjunction with other environmental testing. Ensure that the Overseas Environmental Baseline Guidance Document and AR 200-1 are available.

PERFORMANCE MEASURES	GO	NO-GO	N/A
1. Developed a waste management plan.			
2. Identified the Key Players within the Joint and COCOM staffs.			
3. Utilized the Environmental Baseline Survey and environmental media in construction and new basecamp site selection.			
4. Identified the three (3) stages of the environmental survey process.			

### Supporting Reference(s):

Step Number	Reference ID	Reference Name	Required	Primary
	AR 200-1	ENVIRONMENTAL PROTECTION AND ENHANCEMENT	No	Yes
	DOD 4715.05-G	Overseas Environmental Baseline Guidance Document.	Yes	No
	FM 3-34.5	Environmental Considerations	No	No

**Environment:** Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to FM 3-34.5 Environmental Considerations and GTA 05-08-002 ENVIRONMENTAL-RELATED RISK ASSESSMENT.

**Safety:** In a training environment, leaders must perform a risk assessment in accordance with ATP 5-19, Risk Management. Leaders will complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW FM 3-11.4, Multiservice Tactics, Techniques, and Procedures for Nuclear, Biological, and Chemical (NBC) Protection, FM 3-11.5, Multiservice Tactics, Techniques, and Procedures for Chemical, Biological, Radiological, and Nuclear Decontamination.
