

## ART 5.3.2 MANAGE INFORMATION AND DATA

Units that manage information and data, identify information, and then direct relevant information to the right person, at the right time, in a usable format to facilitate situational understanding and decisionmaking. They use procedures and information systems to collect, process, display, store, and disseminate data and information. (FM 6-0) (USACAC)

NO.	Scale	Measure
01	Yes/No	Information and data collected, processed, displayed, stored, and disseminated directed relevant information to the right persons at the right time in a usable format to facilitate situational understanding and decisionmaking.
02	Time	To direct, establish, and control the means by which the various staffs and forces send and receive operationally significant data or information, to minimize operations delayed or affected because of lack of information.
03	Time	For common operational picture to reflect real-world situation.
04	Percent	Of critical information acquired and disseminated to subordinate commanders and appropriate members of subordinate staffs.
05	Percent	Of time that data was presented to the decisionmaker in the requested format.
