

### **ART 7.3.5.4.1 Support Host-Nation Telecommunications Infrastructure Reconstruction Program**

Support to Host-Nation Telecommunications Infrastructure Program focuses on providing initial assessment of the operational readiness and capabilities of the host nation’s official public communications systems (and when or if necessary private telecommunications systems.) The systems enable a government to communicate with its populace. This includes mass media systems including radio station equipment and antennae systems, television stations and antenna systems, data network equipment and servers which connect to the wider internet, and wired or wireless telephone central systems and antennae. This requires thoroughly understanding the technical operation of commercial off-the-shelf equipment and systems used in providing mass communications systems. (FM 3-07). (USACAC)

<b>NO.</b>	<b>Scale</b>	<b>Measure</b>
01	Yes/No	Unit assessed and prioritized television broadcast telecommunications capabilities available to the host-nation government authority.
02	Yes/No	Unit assessed and prioritized radio broadcast telecommunications capabilities available to the host-nation government authority.
03	Yes/No	Unit assessed and prioritized internet system capabilities available to the host-nation government for internal and external communications.
04	Yes/No	Unit assessed and prioritized wired and wireless telephonic telecommunications capabilities available to the host-nation government authority.
05	Percent	Of state or geographic region’s government authorities which can complete two-way electronic communications with the host-nation government authority and supporting US nongovernmental organizations.
06	Percent	Of state or geographic region’s government authorities with which the host-nation government authority can communicate with one-way communications.
