

## ART 6.2.3.5 Conduct Army Special Operations Forces Personnel Recovery

Conduct Army special operations force (ARSOF) PR missions to achieve specific, well-defined, and often sensitive results of strategic or operational significance. ARSOF PR missions are conducted in support of their own operations, when directed by the joint task force commander to support a PR operation, when the threat to the recovery force is high enough to warrant the conduct of a special operation, and when ARSOF is the only force available. Detailed planning, rehearsals, and in-depth intelligence analysis characterize ARSOF PR missions. This ART includes unassisted evasion, nonconventional assisted recovery and unconventional assisted recovery.

NO.	Scale	Measure
01	Yes/No	Planning system enforced to provide timely reporting; unit accurately reported validation and determined location; and unit rapidly disseminated the information to the entire PR architecture for coordinated response.
02	Yes/No	The primary mission continued parallel to the recovery effort.
03	Yes/No	The isolated, mission, detained, or captured (IMDC) person was recovered.

### Supporting Collective Tasks:

Task No.	Title	Proponent	Echelon
71-8-6236	Coordinate Personnel Recovery (Brigade - Corps)	71 - Combined Arms (Collective)	Corps
