

Training and Evaluation Outline Report

Status: Approved

15 Jun 2022

Effective Date: 15 Jun 2022

Task Number: 71-BDE-5132

Task Title: Perform Planned Actions, Sequels, and Branches

Distribution Restriction: Approved for public release; distribution is unlimited.

Destruction Notice: None

Foreign Disclosure: FD1 - This training product has been reviewed by the training developers in coordination with the Fort Leavenworth, KS foreign disclosure officer. This training product can be used to instruct international military students from all approved countries without restrictions.

Supporting Reference(s):

Step Number	Reference ID	Reference Name	Required	Primary	Source Information
	ADP 5-0	The Operations Process	Yes	No	
	FM 5-0	Planning and Orders Production	Yes	Yes	
	LOCAL SOP	LOCAL SOP	Yes	No	

Conditions: The brigade receives an order from higher headquarters or the commander derives a mission requiring the unit to perform planned actions, sequels, and branches in a dynamic and complex operational environment. Hybrid threat(s) contest the brigade's objectives in all five domains (air, land, sea, space, and cyberspace), the information environment (IE), and the electromagnetic spectrum. All eight operational variables of PMESII-PT are present and dynamic. The order from higher headquarters includes all applicable overlays and or graphics, area of operation (AO) boundaries, control measures, and criteria for subsequent tactical actions. The command has communications with subordinate units, adjacent units, and higher headquarters. The commander has organized the four components of the command and control system to support decision making, facilitate communication, and conduct operations.

Note 1: The conditions statement for this task reflects the training conditions required for the evaluated unit to receive a trained (T) rating. However, a unit can only receive a T rating if the task is executed under these conditions during an external evaluation.

Note 2: Conduct the task using mission partner network (MPN) for foreign-partner information-sharing or conduct the operation as if foreign partners are on the network, realistically portraying an environment where the Army will likely conduct operations in a combined theater. Produce orders, estimates, and other staff products on the SECRET//RELEASABLE (S//REL) network while retaining non-releasable or not releasable to foreign nationals (NOFORN) information on the secret internet protocol router network (SIPRNET). Deployed units regularly operate mission-specific multinational information networks, and the Army will soon migrate most operations and training to the Releasable-Training Environment (R-TE).

Note 3: The brigade may execute some iterations of this task with a multinational component to the force. Exercise planners should coordinate for a multinational partner to participate in the exercise as a component of the multinational task force or should resource training support to role play and replicate a multinational force in simulation. When the brigade is executing this task in a scenario without a multinational component, evaluators should rate steps in this task that only apply to multinational operations scenarios as N/A. Standard MOPP 4 conditions do not exist for this task. See the MOPP 4 statement for specific conditions.

Standards: The brigade performs planned actions, sequels, and branches to exploit success or a forecasted opportunity, counter disruptions caused by enemy actions, enhance flexibility during operations, and retain the initiative for the brigade commander. The brigade performs planned actions, sequels, and branches in accordance with (IAW) FM 5-0, the Army Ethic, established timelines, the commander's intent, orders from higher headquarters, and standard operating procedures.

The Objective Task Evaluation Criteria Matrix (below) is the Army's standard evaluation criteria used by commanders to objectively assess their unit's collective task training conducted during collective training events. Task assessment is determined by the environment, percentages of leaders and Soldiers present at training, task performance, and external task evaluation. For example, in order to receive a fully trained (T) rating, a unit must perform this task incorporating the identified training environment, with 75% of brigade leaders and 80% of Soldiers present for training, attaining 80% on performance measures, 100% on critical performance measures, and 85% on leader performance measures, and with an external evaluation. Failure to meet any one of these criteria will result in a lower than (T) rating.

Note: Leader is defined as the commander; executive officer (XO); command sergeant major (CSM); S-1; S-2; S-3; S-4; S-6; S-9; fire support officer (FSO); support operations officer (SPO) [sustainment brigades only]; liaison officer (LNO); operations sergeant major (SGM); chief of current operations; current operations senior noncommissioned officer; chief of fire support; air liaison officer (ALO); aviation officer; cyber electromagnetic warfare officer (CEWO); chemical, biological, radiological, and nuclear (CBRN) officer; engineer; staff judge advocate (SJA); chief of protection; knowledge management coordinator; information operations (IO) coordinator; operations security (OPSEC) officer [additional duty]; personnel recovery (PR) officer; provost

marshal (PM); public affairs officer (PAO); psychological operations (PSYOP) noncommissioned officer; surgeon; safety officer; transportation officer; foreign disclosure representative (FDR); the command teams of subordinate commands; and other leaders on the brigade's table of organization and equipment that the commander deems essential for performing planned actions, sequels, and branches.

Live Fire: No

Objective Task Evaluation Criteria Matrix:

Plan and Prepare		Execute					Assess			
Operational Environment	Training Environment (L/V/C)	Leaders Present at Training/Required	Present at Training/Required	External Eval	Performance Measures	Critical Performance Measures	Leader Performance Measures	Evaluator's Observed Task Proficiency Rating	Commander's Assessment	
BDE & Above										
Dynamic and Complex (All OE Variables and Hybrid Threat)	Night	Live/Constructive	>=75%	>=80%	Yes	>=80%	All	>=85%	T	T
									T-	T-
Dynamic and Complex (All OE Variables and Single Threat)	Day		60-74%	60-79%	No	65-79%	<All	75-84%	P	P
										P-
Dynamic and Complex (<All OE Variables and Single Threat)			<=59%	<=59%		<=64%		<=74%	U	U

Remarks: None

Notes: None

Safety Risk: Low

Task Statements

Cue: The brigade receives an order from higher headquarters or the commander derives a mission requiring the brigade to perform planned actions, sequels, and branches.

DANGER

Leaders have an inherent responsibility to conduct risk management to ensure the safety of all Soldiers and promote mission accomplishment.

WARNING

Risk management is the Army's primary decision-making process to identify hazards, reduce risk, and prevent both accidental and tactical loss. All Soldiers have the responsibility to learn and understand the risks associated with this task.

CAUTION

Identifying hazards and controlling risks across the full spectrum of Army functions, operations, and activities is the responsibility of all Soldiers.

Task Performance Summary Block										
Training Unit			ITERATION							
			1		2		3		4	
Date of Training per Iteration:										
Day or Night Training:			Day / Night		Day / Night		Day / Night		Day / Night	
			#	%	#	%	#	%	#	%

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to the current Environmental Considerations manual and the current GTA Environmental-related Risk Assessment card. Refer to GTA 05-08-002 ENVIRONMENTAL-RELATED RISKASSESSMENT.

Safety: In a training environment, leaders must perform a risk assessment in accordance with current Risk Management Doctrine. Leaders will complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW current CBRN doctrine. Refer to GTA 05-08-012 INDIVIDUAL SAFETY CARD.
