

ART 6.12.1 Conduct Unexploded Explosive Ordnance and Explosive Remnants of War operations

EOD units identify, render safe, recover, evaluate, dispose of, mitigate the threat of, and report (EOD and intelligence) U.S. and foreign UXOs to eliminate or reduce hazards and to protect the commander's combat power. EOD units maintain the capability to render safe, identify, destroy, and move UXO hazards to safe holding or disposal areas within the limitations of their organic transportation assets, perform technical intelligence on new or first seen ordnance items, and perform postblast forensic analysis. EOD performs initial assessment of explosive remnants of war sites, eliminates immediate hazards, conducts technical intelligence procedures, and recommends disposition to capturing unit. (FM 3-34.214) (CASCOM)
