

Summary Report for Individual Task  
101-92M-4202  
Manage Mortuary Affairs Contaminated Remains Mitigation Site (MACRMS)  
Status: Approved

---

**Distribution Restriction:** Approved for public release; distribution is unlimited.

**Destruction Notice:** None

**Foreign Disclosure: FD6** - This product/publication has been reviewed by the product developers in coordination with the Fort Lee, VA foreign disclosure authority. This product is releasable to students from foreign countries on a case-by-case basis.

**Condition:** As a mortuary affairs NCO working at a Mortuary Affairs Contaminated Remains Mitigation Site (MACRMS) given MA personnel, external support personnel, and MACRMS equipment. This task is always performed in MOPP 4.

**Standard:** Manage Mortuary Affairs Contaminated Remains Mitigation Site Tasks.

**Special Condition:** None

**Safety Risk:** Low

**MOPP 4:** Always

<b>Task Statements</b>
------------------------

**Cue:** None

<b>DANGER</b>
None

<b>WARNING</b>
None

<b>CAUTION</b>
None

**Remarks:** None

**Notes:** None

### Performance Steps

1. Manage mortuary affairs contaminated remains mitigation site (MACRMS).

- a. Identify planning considerations.
- b. Establish losing unit responsibilities.
- c. Establish operational level tasks.
- d. Establish theater level tasks.
- e. Enforce safety and sanitation.

2. Coordinate for MACRMS in an operational environment.

- a. Determine facility layout.
  - (1) Manage chemical agent MACRMS.
  - (2) Manage biological agent MACRMS.
  - (3) Manage radiological agent MACRMS.
- b. Determine personnel requirements.
- c. Request external support.

3. Provide disposition of human remains from a MACRMS.

- a. Coordinate temporary storage.
- b. Coordinate evacuation.
- c. Coordinate temporary interment.
- d. Manage MACRMS records.

(Asterisks indicates a leader performance step.)

**Evaluation Guidance:** Score the NCO a Go if they successfully complete all steps. Score the NCO a NO-GO if they fail to complete any step. If the NCO fails any step, show what they did wrong and how to do it correctly.

**Evaluation Preparation:** Use a predetermined site. Provide the NCO with required personnel and equipment to perform the task. If using mannequins for training purposes, ensure handling as if they are actual fatalities.

PERFORMANCE MEASURES	GO	NO-GO	N/A
1. Managed mortuary affairs contaminated remains mitigation site (MACRMS).			
a. Identified planning considerations.			
b. Established losing unit responsibilities.			
c. Established operational level tasks.			
d. Established theater level tasks.			
e. Enforced safety and sanitation.			
2. Coordinated for MACRMS in an operational environment.			
a. Determined facility layout.			
(1) Managed chemical agent MACRMS.			
(2) Managed biological agent MACRMS.			
(3) Managed radiological agent MACRMS.			
b. Determined personnel requirements.			
c. Requested external support.			
3. Provided disposition of human remains from a MACRMS.			
a. Coordinated temporary storage.			
b. Coordinated evacuation.			
c. Coordinated temporary interment.			
d. Managed MACRMS records.			

**Supporting Reference(s):**

Step Number	Reference ID	Reference Name	Required	Primary
	FM 3-11.5	Multiservice Tactics, Techniques, and Procedures for Chemical, Biological, Radiological, and Nuclear Decontamination {MCWP 3-37.3; NTTP 3-11.26; AFTTP(I) 3-2.60} (This item is included on EM 0205)	Yes	No
	JP 3-11	Operations in Chemical, Biological, Radiological, and Nuclear Environments	Yes	No
	JP 4-06	Mortuary Affairs in Joint Operations	Yes	Yes
	TG 195	Safety and Health Guidance for Mortuary Affairs Operations	Yes	Yes

**Environment:** Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to FM 3-34.5 Environmental Considerations and GTA 05-08-002 ENVIRONMENTAL-RELATED RISK ASSESSMENT. "Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning.

Always be alert to ways to protect our environment during training and missions. In doing so you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects."

**Safety:** In a training environment, leaders must perform a risk assessment in accordance with ATP 5-19, Risk Management. Leaders will complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW FM 3-11.4, Multiservice Tactics, Techniques, and Procedures for Nuclear, Biological, and Chemical (NBC) Protection, FM 3-11.5, Multiservice Tactics, Techniques, and Procedures for Chemical, Biological, Radiological, and Nuclear Decontamination. Everyone is responsible for safety. A thorough risk assessment must be completed prior to every mission or operation.

Strict adherence to sanitary measures while processing remains and personal effects. Rubber gloves will be used when

handling remains. All personnel handling remains and personal effects will wash their hands with soap and water. Litters and other equipment will be thoroughly scrubbed. These precautions are required to prevent the spread of disease and contamination. When handling remains personal hygiene and safety must be maintained as they pertain to the practices of personal environmental disinfection and decontamination by practitioners of mortuary services. The wearing of protective clothing, as required by the Armed Force Public Health Guidelines, such as surgical gowns, gloves, masks (cotton and/or OSHA type oral nasal, goggles and/or glasses) will be minimize transmission of infectious agents associated with the medical and paramedical environments. Mortuary affairs personnel should also receive an annual physical examination and adhere to an effective program of routine prophylactic immunizations.

**Prerequisite Individual Tasks :** None

**Supporting Individual Tasks :**

<b>Task Number</b>	<b>Title</b>	<b>Proponent</b>	<b>Status</b>
101-92M-1203	Process Remains at a MACRMS Reception Station	101 - Quartermaster (Individual)	Approved
101-92M-1202	Receive Remains at a MACRMS Dismount Site	101 - Quartermaster (Individual)	Approved
101-92M-1104	Record Data on DD Form 1077 (Collection Point Register of Deceased Personnel)	101 - Quartermaster (Individual)	Approved
101-92M-3301	Evacuate Remains, Effects, and Records from a Theater Mortuary Evacuation Point	101 - Quartermaster (Individual)	Obsolete
101-92M-3202	Process Remains at a MACRMS Detection/Quality Control Station	101 - Quartermaster (Individual)	Approved
101-92M-3201	Direct Mortuary Affairs Contaminated Remains Mitigation Site(MACRMS) Section Operations	101 - Quartermaster (Individual)	Obsolete
101-92M-1201	Assist with the Set Up of the MACRMS	101 - Quartermaster (Individual)	Approved
101-92M-1007	Record Data on DD Form 1076 (Military Operations Record of Personal Effects of Deceased personnel)	101 - Quartermaster (Individual)	Approved
101-92M-1206	Process Remains at a Theater Quality Control Station	101 - Quartermaster (Individual)	Approved
101-92M-1205	Process Remains at a MACRMS Release Station	101 - Quartermaster (Individual)	Approved
101-92M-1204	Process Remains at a MACRMS Wash/Rinse Station	101 - Quartermaster (Individual)	Approved
