

ART 6.2.3.3 Conduct Deliberate Personnel Recovery

Conduct deliberate PR when an incident is reported and an immediate recovery is not feasible or was not successful. Weather, enemy actions, location of IMDC personnel, and recovery force capabilities are examples of factors that may require the detailed planning and coordination of a deliberate recovery.

NO.	Scale	Measure
01	Yes/No	Planning system enforced to provide timely reporting; unit accurately reported validation and determined location; and unit rapidly disseminated the information to the entire PR architecture for coordinated response.
02	Yes/No	The system provided for accurate record keeping without degrading the PR effort.
03	Yes/No	The primary mission continued parallel to the recovery effort.
