

## ART 3.1 Integrate Fires

Commanders integrate fires and maneuver through the operations process. Fire support personnel from platoon through theater Army assist the commander by integrating and synchronizing related tasks and systems that provide collective and coordinated use of Army indirect fires and joint fires with the effects of other warfighting functions. These are integrated into the concept of operations during planning and adjusted based on the targeting guidance. (FM 6-20) (USAFAS)

Note: ART 5.1.1.4 (Conduct Fires Planning) addresses planning for fires conducted during the operations process.
