

ART 7.3.5.4 Support General Infrastructure Reconstruction Programs

General infrastructure reconstruction programs focus on rehabilitating the state's ability to produce and distribute fossil fuels, generate electrical power, exercise engineering and construction support, and provide municipal and other services to the populace. As with the restoration of essential services, support to general infrastructure programs requires a thorough understanding of the civil component of the area of operations. Civil affairs personnel support this information collection to inform the prioritization of programs and projects.
