

ART 6.2.2.2 Deploy Personnel Recovery Capability and Build Combat Power

During deployment, commanders must determine who will be providing PR coverage for their arriving forces. Until commanders can build sufficient combat power to provide PR for their forces, other forces in theater must provide PR support. Build combat power through reception, staging, onward movement, and integration (RSOI). Early and continuous connectivity with the theater PR architecture enables commanders to report IMDC incidents during deployment. This also allows commanders to report unit status when ready to assume responsibility for assigned PR missions.
