**Condition:** The command is conducting operations as a Joint Task Force (JTF) or as a Combined Joint Task Force (CJTF) headquarters. The command's headquarters receives liaison, unit, and individual augmentees. The command receives an operations order from higher headquarters. The commander issues guidance on operational priority information requirements. The command establishes communications with subordinate and adjacent units and higher headquarters. The mission command system is operational and processing information in accordance with standard operating procedures. This task should not be trained in MOPP 4.

**Standard:** The staff develops priority intelligence requirements and plans the collection effort to provide the required intelligence based on the joint force commander's guidance in accordance with the commanders intent, orders from higher headquarters, and standard operating procedures.

**Safety Risk:** Low

<b>Task Statements</b>
------------------------

**Cue:** None

<b>DANGER</b> Leaders have an inherent responsibility to conduct Composite Risk Management to ensure the safety of all Soldiers and promote mission accomplishment.
--

<b>WARNING</b> Composite Risk Management is the Army's primary decision-making process to identify hazards, reduce risk, and prevent both accidental and tactical loss. All soldiers have the responsibility to learn and understand the risks associated with this task.
--

## **CAUTION**

Identifying hazards and controlling risks across the full spectrum of Army functions, operations, and activities is the responsibility of all Soldiers.

**Remarks:** None

**Notes:** None

## TASK STEPS

1. The staff analyzes the mission and the commander's initial guidance to:
  - a. Determine specified, implied, and essential tasks.
  - b. Evaluate constraints placed on the command.
  - c. Establish the commander's intent and concept of operations.
  - d. Determine available assets and identify resource shortfalls.
  - e. Calculate the operational timeline.
  - f. Confirm the missions of adjacent, supporting, supported organizations, and unified action partners and their command relationships.
  - g. Orient the assigned area of operation.
  - h. Identify critical facts and develop assumptions.
  - i. Update staff estimates.
  - j. Develop initial themes and messages.
  - k. Produce a proposed mission statement.
  - l. Develop course of action evaluation criteria.
  - m. Perform the intelligence preparation of the battlefield to:
    - (1) Define the operational environment.
    - (2) Assess the effects of the environment on operations.
    - (3) Evaluate threat characteristics, doctrine, tactics, techniques, and behavior.
    - (4) Determine possible, likely, and most dangerous threat courses of action.
    - (5) Identify information collection assets' sensitivities to weather effects on operations.
    - (6) Select high-value targets.
  - n. Identify information gaps about the adversary and other relevant aspects of the operational environment.
2. The staff develops requirements for collection of information or the production of intelligence by:
  - a. Assessing the information gaps about the adversary and the operational environment.
  - b. Requesting nominations for intelligence requirements from the staff.
  - c. Consolidating intelligence requirement nominations from the staff.

**Environment:** Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to FM 3-34.5 Environmental Considerations and GTA 05-08-002 ENVIRONMENTAL-RELATED RISK ASSESSMENT. Environmental protection is not just the law but the right thing to do. **Safety:** In a training environment, leaders must perform a risk assessment in accordance with ATP 5-19, Risk Management. Leaders will complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW FM 3-11.4, Multiservice Tactics, Techniques, and Procedures for Nuclear, Biological, and Chemical (NBC) Protection, FM 3-11.5, Multiservice Tactics, Techniques, and Procedures for Chemical, Biological, Radiological, and Nuclear Decontamination.
