

Report Date: 25 Apr 2014

Summary Report for Individual Task
441-096-2420
Perform March Order of the Surface Wire Grounding System (SWGS)
Status: Approved

DISTRIBUTION RESTRICTION: Approved for public release; distribution is unlimited.

DESTRUCTION NOTICE: None

Condition: In atactical environment, you are directed to prepare the SWGS for march order. Some iterations of this task should be performed in MOPP 4.

Standard: Prepare the SWGS for road march, without causing injury to self or other personnel, with no damage to the equipment, with minimal damage to the environment, and within the time prescribed by local command directives.

Special Condition: None

Safety Level: Low

MOPP: Sometimes

Task Statements

Cue: March Order the Surface Wire Grounding System (SWGS)

DANGER

None

WARNING

None

CAUTION

None

Remarks: None

Notes: I required Air Defense specific references and technical manuals will be provided by the local Air Defense Command.

Performance Steps

1. Remove the grounding stakes.
2. Clean the grounding stakes.
3. Place all equipment in the SWGS transit bag.
 - a. Three-pound sledge hammer
 - b. Cable stakes
 - c. Cable assembly
 - d. Two jumper cables
4. Stow the SWGS transit bags.

(Asterisks indicates a leader performance step.)

Evaluation Guidance: core the soldier GO if all steps are passed (P). Score the soldier NO-GO if any step is failed (F). If the soldier fails any step, show the soldier what he did wrong and how to do it correctly.”

Evaluation Preparation: sure that all information, references, and equipment required to perform the task are available. Use the performance measures and the references to score the Soldier’s performance. Inform the Soldier as to what he/she is required to perform IAW the task conditions and standards.

PERFORMANCE MEASURES	GO	NO-GO	N/A
1. Removed the grounding stakes.			
2. Cleaned the grounding stakes.			
3. Placed all equipment in the SWGS transit bag.			
4. Stowed the SWGS transit bags.

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to FM 3-34.5 Environmental Considerations and GTA 05-08-002 ENVIRONMENTAL-RELATED RISK ASSESSMENT.

Safety: In a training environment, leaders must perform a risk assessment in accordance with FM 5-19, Risk Management. Leaders will complete a DA Form 7566 COMPOSITE RISK MANAGEMENT WORKSHEET during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW FM 3-11.4, Multiservice Tactics, Techniques, and Procedures for Nuclear, Biological, and Chemical (NBC) Protection, FM 3-11.5, Multiservice Tactics, Techniques, and Procedures for Chemical, Biological, Radiological, and Nuclear Decontamination. Everyone is responsible for safety. A thorough risk assessment must be completed prior to every mission or operation.
