

ART 4.2.2 Provide Financial Management Support

Provide financial management support to commanders. Financial management is composed of two mutually supporting core functions: finance operations and resource management operations. Finance operations include developing policy and guidance; providing advice to commanders; disbursing support to the procurement process, banking and currency; accounting; and providing limited pay support. Resource management operations include providing advice to commanders; maintaining accounting records; establishing a management control process; developing resource requirements; identifying, acquiring, distributing, and controlling funds; and tracking, analyzing, and reporting budget execution.
