

### ART 4.1.2.1.3 Conduct Support to Movement

Control movement with a traffic circulation plan that addresses the use of main supply route (names, direction of travel, size, and weight restrictions), checkpoints, rest and refuel areas, traffic control points, highway regulation points, and mobile patrols. It reflects any restrictive route features, such as direction of travel or size and weight restrictions, and critical points. ART 4.1.2.1.3 includes providing route signs and installing radio frequency interrogators at critical points to capture radio frequency tag data and report the data to in-transit visibility servers.
