

Report Date: 09 Apr 2013

**Summary Report for Individual Task
031-627-3040
Provide Technical Advice on Precursors
Status: Approved**

DISTRIBUTION RESTRICTION: Approved for public release; distribution is unlimited.

DESTRUCTION NOTICE: None

Condition: You are a CBRN Officer/ Noncommissioned Officer (NCO) operating in tactical operation center, and have Field Manual (FM) 3-11.9 available. During your unit's mission, one of your platoons report they have found suspicious labeled containers and bags possibly filled with precursors. Standard MOPP conditions do not exist for this task. See the MOPP statement for specific conditions.

Standard: Provide technical advice on chemical warfare agent (CWA) precursors IAW FM 3-11.9.

Special Condition: None

Special Standards: None

Special Equipment:

Safety Level: Low

MOPP: N/A

Task Statements

Cue: None

DANGER
None

WARNING
None

CAUTION
None

Remarks: None

Notes: None

Performance Steps

1. Determine threat to unit.
 - a. Request information from the S2.
 - (1) Request historical data.
 - (2) Request current situation.
 - (3) Identify operational facilities/industries.
 - b. Request information from the S3.
 - (1) Request current operations.
 - (2) Request future operations.
 - c. Request information from civil affairs/host nation.
 - d. Gather information from higher headquarters.
2. Provide technical advice on CWAs.
 - a. Determine if the chemicals found are binary agent component precursors IAW FM 3-11.9, Chapter 2, Section 9.
 - b. Determine if the chemicals found are listed as CWA precursors in Appendix E, FM 3-11.9.
 - c. Determine in Appendix E if the site where chemicals are found relates to civil use.
 - d. Identify the potential CWAs that can be produced.

(Asterisks indicates a leader performance step.)

Evaluation Preparation: Setup: A good time to evaluate this task is while in a field environment. Gather materials for disposal of hazardous waste according to federal, state, and local rules and regulations.

Brief Soldier: Inform the Soldier where the CWA's are and give him/her the labeled material in the conditions statement and tell the Soldier to give technical advice on precursors to the commander.

PERFORMANCE MEASURES	GO	NO-GO	N/A
1. Determined threat to unit.			
a. Requested information from the S2.			
(1) Requested historcal data.			
(2) Requested current situation.			
(3) Identified operational facilities/industries.			
b. Requested information from the S3.			
(1) Requested current operations.			
(2) Requested futrue operations.			
c. Requested information from civil affairs/host nation.			
d. Gathered information from higher headquarters.			
2. Provided technical advice on CWAs.			
a. Determined if the chemicals found are binary agent component precursors IAW FM 3-11.9, Chapter 2, Section 9.			
b. Determined if the chemicals found are listed as CWA precursors in Appendix E, FM 3-11.9.			
c. Determined in Appendix E if the site where chemicals are found related to civil use.			
d. Identified the potential CWAs that can become produced.

Step Number	Reference ID	Reference Name	Required	Primary
	FM 3-11.9	POTENTIAL MILITARY CHEMICAL/BIOLOGICAL AGENTS AND COMPOUNDS	Yes	Yes

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to FM 3-34.5 Environmental Considerations and Graphic Training Aid (GTA) 05-08-002 Environmental-Related Risk Assessment.

Safety: In a training environment, leaders must perform a risk assessment in accordance with FM 5-19, Composite Risk Management. Leaders will complete a DA Form 7566 COMPOSITE RISK MANAGEMENT WORKSHEET during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW FM 3-11.4, NBC Protection, FM 3-11.5, CBRN Decontamination. In a training environment, leaders must perform a risk assessment IAW FM 5-19, Composite Risk Management. Leaders will complete a DA Form 7566 Composite Risk Management Worksheet during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available, and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW FM 3-11.4 Multiservice Tactics, Techniques, and Procedures for Nuclear, Biological, and Chemical Protection, and FM 3-11.5 Multiservice Tactics, Techniques, and Procedures for Chemical, Biological, Radiological and Nuclear Decontamination.
