

ART 2.4.1.1 Provide Intelligence Support to Target Development

The systematic analysis of threat forces and operations to determine high-value targets (people, organizations, or military units the threat commander requires for successful completion of the mission), high-payoff targets (people, organizations, or military units whose loss to the enemy contributes significantly to the success of the friendly course of action), and systems and system components for potential attack through maneuver, fires, electronic means, or information engagement or operations. (FM 2-0) (USAICoE)

NO.	Scale	Measure
01	Yes/No	Unit developed target critical components on high-value targets.
02	Yes/No	Unit refined target critical components as high-payoff targets.
03	Yes/No	Critical components passed to targeting cell in sufficient time to engage targets.
04	Yes/No	Unit identified, nominated, and prioritized targets for lethal or nonlethal action.
05	Yes/No	Staff integrated information engagement and offensive information operations (IO) requirements into target development.
06	Yes/No	Staff identified target areas of interest associated with each lethal or nonlethal action.
07	Time	To identify, nominate, and prioritize targets for lethal or nonlethal action.
08	Time	To develop target list and perform target system analysis, critical components, vulnerability assessment, and target validation based on commander's guidance.
09	Time	To identify target areas of interest for each lethal or nonlethal action.
10	Percent	Of targeted system vulnerabilities identified correctly.
11	Number	Of correctly identified critical components in targeted systems.
12	Number	Of correctly identified targets for lethal and nonlethal action.
