

Training and Evaluation Outline Report

Task Number: 71-8-5700

Task Title: Develop Airspace Usage Priorities (Brigade-Corps)

Distribution Restriction: Approved for public release; distribution is unlimited.

Destruction Notice: None

Foreign Disclosure: FD1 - This training product has been reviewed by the training developers in coordination with the Fort Leavenworth foreign disclosure officer. This training product can be used to instruct international military students from all approved countries without restrictions.

Supporting Reference(s):

Step Number	Reference ID	Reference Name	Required	Primary
	FM 3-52	AIRSPACE CONTROL	Yes	Yes
	JP 3-52	JOINT DOCTRINE FOR AIRSPACE CONTROL IN THE COMBAT ZONE	Yes	No

Condition: The command receives a mission order from higher headquarters and the commander issues guidance on developing airspace usage priorities. The command establishes communications with subordinate and adjacent units, and higher headquarters. The mission command system is operational and processing information. Some iterations of this task should be performed in MOPP 4.

Standard: The staff analyzes pertinent airspace orders, directives, and the ground commander's concept of operation to develop airspace usage priorities in accordance with standard operating procedures and commanders intent.

Safety Risk: Low

Task Statements

Cue: None

DANGER
Leaders have an inherent responsibility to conduct Risk Management to ensure the safety of all Soldiers and promote mission accomplishment.

WARNING
Risk Management is the Army's primary decision-making process to identify hazards, reduce risk, and prevent both accidental and tactical loss. All Soldiers have the responsibility to learn and understand the risks associated with this task.

CAUTION

Identifying hazards and controlling risks across the full spectrum of Army functions, operations, and activities is the responsibility of all Soldiers.

Remarks: None

Notes: None

TASK STEPS

1. The staff develops initial airspace usage priorities by:
 - a. Reviewing plans, orders, and special instructions for synchronization of current operations, and future planning:
 - (1) Airspace Control Plan.
 - (2) Air Operations Directive.
 - (3) Air Tasking Order (ATO).
 - (4) Airspace Control Order (ACO).
 - (5) Airspace Control Authorities (ACA).
 - (6) Air track identification authorities/responsibilities for each echelon.
 - (7) Rules of engagement procedures and authority for friendly air defense assets within the AO.
 - (8) All data link information affecting airspace control nodes in the AO.
 - (9) Procedures for requesting Airspace Coordinating Measures.
 - (10) Fire Support Plan.
 - (11) Unmanned Aerial System Information collection plan.
 - b. Confirms the commander's intent, priorities and risk guidance for airspace use throughout the operation.
 2. The staff develops recommendations for airspace usage priorities during the military decision-making process by:
 - a. Developing airspace usage priorities during course of action development (COA).
 - b. Coordinating airspace usage priorities during wargaming.
 3. The staff coordinates the priorities to facilitate current operations and future planning.
 4. The staff publishes Appendix 10 (Airspace Control) to Annex C (Operations).
- (Asterisks indicates a leader performance step.)

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to FM 3-34.5 Environmental Considerations and GTA 05-08-002 ENVIRONMENTAL-RELATED RISK ASSESSMENT. .

Safety: In a training environment, leaders must perform a risk assessment in accordance with ATP 5-19, Risk Management. Leaders will complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW FM 3-11.4, Multiservice Tactics, Techniques, and Procedures for Nuclear, Biological, and Chemical (NBC) Protection, FM 3-11.5, Multiservice Tactics, Techniques, and Procedures for Chemical, Biological, Radiological, and Nuclear Decontamination. .
