Conditions: The Sustainment Brigade has deployed in support of units engaged in Unified Land Operations and directed the FMSU to provide funding support to financial management elements. The FMSU has stationed its subordinate Financial Management Support Detachments (FMSDs) throughout the unit's area of responsibility. FMSDs provide support on an area basis to all U.S. units and allied and coalition forces, with funding agreements, operating in or passing through their support area, as appropriate. Allocation of funds has been coordinated with the Financial Management Support Center (FMSC). The FMSU is conducting operations in a dynamic and complex operational environment (OE) against a hybrid threat. The Financial Management Tactical Platform (FMTP) and other automated systems and software will be employed in support of operations as applicable. Connectivity to the NIPRNET has been established. Conventional attacks by hostile aircraft and operations by ground elements are possible. Standing Operating Procedures (SOPs) and DFAS-IN REG 37-1, DFAS-IN REG 37-100, DODFMR 7000.14-R, FM 1-06, JTR are available. Threat capabilities include information gathering, hostile force sympathizers, and terrorist activities in a Chemical, Biological, Radiological, Nuclear and high yield Explosives (CBRNE) environment. Some iterations of this task should be performed in MOPP 4.

Standards: Obtain and distribute required funds to FMSDs and to allied and/or coalition forces within the theater, as appropriate. Maintain full accountability of all funds in accordance with (IAW) DFAS-IN REG 37-1, DFAS-IN REG 37-100, DODFMR 7000.14-R, FM 1-06, and JTR. Based on FMSUs authorized strength, 85% of the FMSU leaders and 80% of Soldiers are present at training. The FMSU attains 90% on performance measures, 100% on critical performance measures, and 90% on leader performance measures achieving a T fully trained.

NOTE: Leader is defined as FMSU Commander (CDR), Disbursing Officer (DO) and Deputy Disbursing Officer (DDO).

Live Fire Required: No

Remarks: None

Notes: Managing risks is the responsibility of all leaders. Regardless of where the task is conducted, field or garrison, the identification of possible hazards for personnel and equipment is essential to mission accomplishment. Risk management activities are continuous and are performed simultaneously with other operational tasks. Once identified potential hazards must be eliminated or reduced to an acceptable level. Leaders must always consider the local constraints and restrictions for their current operating area.

All required non Army Publishing Directorate (APD) financial specific references and technical manuals will be provided by the local Defense Finance and Accounting Services (DFAS).

Safety Risk: Low

Task Statements

Cue: None

DANGER

Leaders have an inherent responsibility to conduct Composite Risk Management to ensure the safety of all Soldiers and promote mission accomplishment.

WARNING

Composite Risk Management is the Army's primary decision-making process to identify hazards, reduce risk, and prevent both accidental and tactical loss. All Soldiers have the responsibility to learn and understand the risks associated with this task.

CAUTION

Identifying hazards and controlling risks across the full spectrum of Army functions, operations, and activities is the responsibility of all Soldiers.

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to the current Environmental Considerations manual and the current GTA Environmental-related Risk Assessment card. None

Safety: In a training environment, leaders must perform a risk assessment in accordance with ATP 5-19, Risk Management. Leaders will complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW FM 3-11.4, Multiservice Tactics, Techniques, and Procedures for Nuclear, Biological, and Chemical (NBC) Protection, FM 3-11.5, Multiservice Tactics, Techniques, and Procedures for Chemical, Biological, Radiological, and Nuclear Decontamination. Safety in performing tasks and within the work/task environment is everyone's responsibility. Supervisors and leaders must ensure a safe and healthful workplace by inspecting the area for hazards and promptly taking action as required to correct hazards. Leaders increase safety by ensuring that Soldiers and Army Civilians are trained and competent to perform their work safely, efficiently, and effectively. Counsel and take action as necessary with Soldiers or Army Civilians who fail to follow safety standards, rules and regulations, including the use of personal protective clothing and equipment, and seatbelts. Leaders should hold all personnel accountable for accidents and property damage, occurring in operations under their direct supervision and control. (See AR 385-10, The Army Safety Program).
