

ART 7.3.6 Conduct Security Force Assistance

Security force assistance is the unified action to generate, employ, and sustain local, host-nation or regional security forces in support of a legitimate authority. Security force assistance improves the capability and capacity of host-nation or regional security organization's security forces, collectively referred to as foreign security forces (FSF).

NO.	Scale	Measure
01	Yes/No	Unit organized foreign security assistance forces to assist FSF in improving its organizational structure, processes, institutions, and infrastructure.
02	Yes/No	Unit developed programs and institutions to train and educate FSF within the nature and requirements of their security environment.
03	Yes/No	Unit exerted all required efforts to assess and assist FSF with procuring equipment that fit the nature of the operational environment.
04	Yes/No	Unit exerted all required efforts to assess and assist FSF with fielding equipment that fit the nature of the operational environment.
05	Yes/No	Unit exerted all required efforts to assess and assist FSF with the sustainment of equipment that fit the nature of the operational environment.
06	Yes/No	Unit conducted an in-depth analysis of the host nation's ability to meet the desired end state within the operational environment.
07	Yes/No	Unit established a professional relationship providing a positive influence to the foreign security force.
08	Yes/No	Unit provided the required supporting or sustaining capabilities so FSF can meet objectives and the end state.
09	Yes/No	Unit gave advice and assistance until FSF could establish required systems.
