Prepare an Aid Bag
Status: Approved

Security Classification: U - Unclassified

Distribution Restriction: Approved for public release; distribution is unlimited.

Destruction Notice: None

Foreign Disclosure: FD1 - This training product has been reviewed by the training developers in coordination with the Joint Base San Antonio, Fort Sam Houston/US Army Medical Center of Excellence (MEDCoE) foreign disclosure officer. This training product can be used to instruct international military students from all approved countries without restrictions.

Conditions: In an operational environment you are required to prepare an aid bag for an upcoming mission. Provided with type and length of the mission, airway, breathing devices, circulation and fracture supplies, antibiotics, pain medications, and a Department of Defense (DD) Form 1380 Tactical Combat Casualty Care (TCCC) Card, or Electronic Medical Record (EMR). Some iterations of this task should be performed in MOPP 4.

Standards: Prepare an aid bag in accordance with (IAW) Prehospital Trauma Life Support, Military Edition, 9th and Tactical Combat Casualty Care (TCCC) guidelines ensuring appropriate supplies for the mission, while adhering to all warnings, and cautions, without error, using the task GO/NO-GO checklist.

Special Conditions: None

Safety Risk: Low

MOPP 4: Sometimes

Task Statements

Cue: None

DANGER
None

WARNING
None

CAUTION
All body fluids should be considered potentially infectious so always observe body substance isolation (BSI) precautions by wearing gloves and eye protection as a minimal standard of protection.

Remarks: This task should be performed under all environmental conditions. Four or more operational variables of political, military, economic, social, information, infrastructure, physical environment, time should be present. Some iterations of this task should be performed with degraded mission command networks, degraded conditions in the electromagnetic spectrum, and/or with degraded, denied, and disrupted space operations environment (D3SOE).

Notes: 68W, Combat Medic Specialist is the proponent for this task.

Performance Steps

1. Identify the type of aid bag for mission required.

Note: The contents of the aid bag will be based on the type and length of the mission, and the skill level of the combat medic. There is no standard packing list for an aid bag.

a. M-5 aid bag.

b. Others.

2. Prepare aid bag (based on the skill level of individual medic).

a. Airway supplies.

(1) Nasopharyngeal airways.

(2) Oropharyngeal airways.

(3) Surgical cricothyroidotomy kit.

b. Breathing supplies.

(1) Chest seal(s).

(2) 14 gauge 3.25 inch needle catheter unit (for needle chest decompression).

c. Circulation supplies.

(1) Kerlix.

(2) Emergency bandages.

(3) Cravats.

(4) Tourniquet.

(5) Intravenous (IV) Infusion sets.

(6) IV fluids.

(7) Intraosseous infusion device.

(8) Constricting band.

(9) Alcohol pads.

(10) Tegaderm dressings.

(11) 18 gauge intravenous (IV) catheters.

(12) Saline locks.

(13) Hemostatic bandages.

(14) Junctional Tourniquet

d. Fracture supplies.

(1) Sam splints.

(2) Ace wraps (2,4,6 inch).

e. Antibiotics.

- (1) Gatifloxacin tablets 400mg.
- (2) Cefotetan, 2-g injection (IV antibiotics).

f. Pain medications.

- (1) Ketamine (IV and IM).
- (2) Oral transmucosal fentanyl citrate (OTFC).
- (3) Combat Wound Medication Pack (CWMP).

g. Miscellaneous supplies.

- (1) Large abdominal pad.
- (2) Tape nylon 1-2-3 inch size.
- (3) Gauze pads 4x4 inch.
- (4) Gauze pads 2x2 inch.
- (5) Eye pads.
- (6) Cotton tipped applicators.
- (7) Band-aids.
- (8) Ear Nose Throat (ENT) kit.
- (9) Stethoscope.
- (10) Burn packs.
- (11) Surgilube.
- (12) Tincture of Benzoin.
- (13) Exam gloves.
- (14) Adjustable C-collar.
- (15) DD Form 1380.
- (16) Bandage scissors.
- (17) Needles (various sizes).
- (18) Syringes (various sizes).
- (19) Chemlights.
- (20) Space blanket.
- (21) Oral hydration solution packs.
- (22) Tongue depressors.

(23) Tranexamic Acid 2g (IV)

(24) Panel Marker, Orange Medical Marking Panel

3. Inspect aid bag to ensure mission essential preparation.

(Asterisks indicates a leader performance step.)

Evaluation Guidance: Score each Soldier according to the performance measures in the evaluation guide. Unless otherwise stated in the task summary, the Soldier must pass all performance measures to be scored GO. If the Soldier fails any step, show what was done wrong and how to do it correctly.

Evaluation Preparation: You must evaluate the Soldier on their performance of this task in an operational condition related to the actual task.

PERFORMANCE MEASURES	GO	NO-GO	N/A
1. Identified the type of aid bag for mission required.			
2. Prepared aid bag (based on the skill level of individual medic).			
3. Inspected aid bag to ensure mission essential preparation.

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to the current Environmental Considerations manual and the current GTA Environmental-related Risk Assessment card.

Safety: In a training environment, leaders must perform a risk assessment in accordance with current Risk Management Doctrine. Leaders will complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW current CBRN doctrine.
