Training and Evaluation Outline Report

Status: Approved 08 Apr 2022 Effective Date: 08 Apr 2022

Task Number: 08-DET-0220

Task Title: Establish Operational Areas

Distribution Restriction: Approved for public release; distribution is unlimited.

Destruction Notice: None

Foreign Disclosure: FD2 - This training product has been reviewed by the training developers in coordination with the MEDCoE, JBSA, FSH foreign disclosure officer. This training product can be used to instruct international military students when the country meets specific criteria. Specify requirement(s) that each country must meet (select all that are appropriate): 1) Must purchase equipment through FMS N/A; 2) Must be a member of a specific group or coalition N/A; 3) Must have an accepted clearance (must be authorized under an identified general security agreement with the US); 4) May not attend FD3 modules N/A; 5) Other "Army Security Cooperation Agreement for International Foreign Military Students".

Conditions: Detachment (DET) receives an operation order (OPORD) from higher headquarters (HQ) to establish operational areas in an operational environment (OE) in support of the operational mission. The commander issues medical planning and execution guidance as required and as situations change. The DET has primary access to main supply routes, approved external sustainment support, and is accessible to all supported and supporting customers/units in the area of operations (AO). Continuous voice, data, full motion video communications capabilities (if required and authorized in accordance with (IAW) OPORD), tactical radios, data networks, command and control (C2) information systems, and other medical network capabilities are established and operational. The required Army, joint, and host nation applicable regulations, approved internal and external standard operating procedures (SOPs), technical manuals (TMs), Army techniques publications (ATPs), and field manuals (FMs), and force health protection (FHP), Army health system (AHS) plans are on-hand as reference material. The DET has been provided guidance on rules of engagement (ROE) for this mission and are continuously receiving updates as situations and mission requirements change. Four or more operational variables of political, military, economic, social, information, infrastructure, physical environment, time (PMEII-PT) should be present. The mission variable of mission , enemy, terrain and weather, troops and support available-time, available and civil considerations (METT-TC) identified constraints must be considered. The DET is not likely to be attacked with hostile enemy fire or chemical agents. This task will be performed under day and night in either/or a combination of operational environments and in four or more operational environments to standard as outlined in the training evaluation matrix of this task. All authorized equipment is on hand and operational to include mission-oriented protective posture (MOPP) gear. All personnel are available to provide support during all day/night operations. Specified time constraints are identified in the OPORD. The DET has adequate resources and time to prepare. DET leaders are present in the AO to provide further guidance as necessary.

NOTE: The condition statement for this task is written assuming the highest training conditions reflected on the task proficiency matrix required for the evaluated unit to receive a trained (T/T-) rating. Not all sub-steps of this task are applicable to every situation. Therefore, the evaluating HQ commander will determine prior to evaluation which steps are designated "N/A" in advance of conducting the evaluation.

NOTE: Training begins with the execution of pre-combat checks and inspections. Training ends when designated training objectives for the particular training events or exercises are performed IAW training & evaluation outline (T&EO) and to Army standard. Unit leadership should conduct an after action report (AAR) to determine future training requirements for the unit and provide feedback to the proponent.

Task Evaluation Criteria Matrix Operational Environment (OE) Definitions:

Static: a static training environment has aspects of operational variables needed to stimulate mission variables that are fixed throughout the unit's execution of the task.

Dynamic: a dynamic training environment has operational variables and threat tactics, techniques, and procedures (TTP) for assigned countertasks that change in response to the execution of friendly force tasks.

Complex: a complex training environment requires a minimum of four-terrain, time, military (threat), and social (population) or more operational variables; brigade and higher units require all eight operational variables to be replicated in varying degrees based on the task being trained.

Single threat: a single threat in a training environment is a conventional force, irregular force, criminal element, or terrorist force.

Hybrid threat: a hybrid threat in a training environment uses diverse and dynamic combination of conventional forces, irregular forces, terrorist forces, and criminal elements unified to achieve mutually benefitting effects.

Live Training Environment: Training executed in field conditions using tactical equipment (involves real people operating real systems).

Virtual Training Environment: Training executed using computer-generated battlefields in simulators with the approximate characteristics of tactical weapon systems and vehicles. Units use virtual training to exercise motor control, decision-making, and communication skills.

Constructive Training Environment: Uses computer models and simulations to exercise command and staff functions. It involves simulated operating simulated systems.

Some iterations of this task should be performed in MOPP 4.

Standards: DET personnel establish operational areas in support of operational forces throughout the AO with use of all available equipment and personnel within the specified time constraints in the mission OPORD and IAW ATP 4-90/emerging doctrine, the approved Army standards identified in the task evaluation criteria matrix and in the task performance steps which are included in this task, the commander's guidance, applicable internal and external SOPs, appropriate medical regulation(s), specified Army regulations.

Note: Leaders may include but not limited to, executive officer (XO), detachment sergeant (DET SGT), supply noncommissioned officer (NCO), and others as determined by the commander.

Live Fire: No

Objective Task Evaluation Criteria Matrix:

Remarks: REPORTING ERRORS AND RECOMMENDING IMPROVEMENTS: You can help improve this collective task. Please let us know if you find any errors or if you would like to recommend any improvements to the performance steps or other information in this collective task. The preferred method is to submit a DA Form 2028 (Recommended Changes to Publications and Blank Forms) with your recommended changes via email to usarmy.jbsa.medical-coe.mbx.collective-training@army.mil. Your recommended changes will be reviewed, validated to ensure approved Army or joint doctrine supports your recommendation(s) and implemented, as applicable.

Notes: Readiness requirement (RR) individual critical task lists (ICTLs) are tasks that have been identified by the military occupational specialties (MOS)/areas of concentration (AOC) specific proponent at the medical center of excellence (MEDCoE) as essential for preparing Soldiers for deployment. The RR tasks are a part of the complete MOS/AOC critical performance list, but special emphasis must be put on these tasks to ensure the Soldiers are obtaining the skills crucial to missions that contribute to lethality and readiness.

RR tasks are identified in each MOS/AOC. The task title, the appropriate skill level, frequency of training and training location are also provided. The tasks can be tracked for individual or unit accountability. The RR tasks can be used as an individual or collective training assessment tool for preparing and sustaining Soldier's skills. The RR tasks can be accessed by using the central Army registry (located on the Army Training Network website).

Safety Risk: Medium

Cue: Upon notification of an OPORD from higher HQ, DET personnel establish operational areas in support of the operational mission.

DANGER

Leaders have an inherent responsibility to conduct risk management to ensure the safety of all Soldiers and promote mission accomplishment.

WARNING

Risk management is the Army's primary decision-making process to identify hazards, reduce risk, and prevent both accidental and tactical losses. All Soldiers have the responsibility to learn and understand the risks associated with this task.

CAUTION

Every Soldier has the inherent responsibility to identify hazards and to mitigate risks across Army mission operations, functions, and other assigned duties.

Performance Steps and Measures

NOTE: Assess task proficiency using the task evaluation criteria matrix.

NOTE: Asterisks (*) indicate leader steps: plus signs (+) indicate critical steps.

NOTE: Asterisks (*) indicate leader steps; plus signs (+) indicate critical steps.			
STEP/MEASURE	GO	NO-GO	N/A
Plan		11000	1071
+* 1. Commander and DET leaders conduct troop leading procedures (TLP) to plan, prepare, execute, and assess operations to establish operational areas in support of the operational mission.			
a. Drive the TLP process to understand, visualize, describe, direct, lead, and assess IAW established timelines, the higher commander's intent, orders from higher headquarters, and SOPs.			
b. Practice the mission command approach to C2.			
c. Inform and influence relevant audiences.			
+* 2. DET leaders plan operations to establish operational areas in support of the commander's decision-making process.			
a. Assess and control operations/activities.			
b. Develop and disseminate orders.			
c. Coordinate with higher HQ for employment of operational planning.			
d. Conduct network operations.			
e. Integrate into higher HQ plan.			
+* 3. Commander and DET leaders issue an OPORD.			
+* 4. Commander and DET leaders conduct briefings with subordinates immediately after issuing the OPORD to ensure subordinates understand the commander's intent.			
Prepare			
+* 5. DET leaders prepare operations to establish operational areas in support of the operational mission.			
a. Determine security requirements.			
b. Identify ongoing tactical operations requirements.			
c. Provide guidance and instructions to DET personnel.			
d. Review the approved layout plan.			
e. Designate helicopter landing zones (LZ) and ambulance exchange points (AXP), as required.			
f. Establish a traffic pattern, which facilitates the movement of equipment and personnel.			
g. Conduct rehearsals.			
h. Adjust the location of operating elements or positions of equipment to improve the workflow/security.			
i. Supervise deployment of DET elements (e.g., teams, squads, etc.) to supported units, when required.			
j. Brief higher HQ commander and staff concerning performance of DET operations.			
k. Develop SOPs to provide instructions to help personnel with setup of equipment and power generation.			
I. Integrate into higher HQ defense plan.			
Execute			
+* 6. DET leaders execute operations to establish operational areas in support of the operational mission.			
a. Establish and maintain communication links between the commander, all unit leaders, and higher HQ.			
b. Enforce operations security (OPSEC) procedures.			
c. Direct dispersion of unit equipment and supplies IAW the SOP.			
d. Set up of unit areas IAW SOP and approved site layout.			
(1) Determine security sector.			
(2) Identify fighting positions.			
(3) Maintain readiness to move.			
e. Direct camouflage of area, when directed by higher HQ.			
f. Report to unit HQ when DET is operational (DET leaders only).			
g. Coordinate with supported unit.			
h. Coordinate field feeding and schedule with supporting elements.			
+ 7. DET personnel establish assigned operational areas.			
a. Maintain a communications link with DET leaders.			
b. Employ OPSEC procedures.			
c. Erect tentage and/or other shelter systems (if available) IAW applicable TMs and manufacturer's instructions.			
d. Set up power generation equipment IAW the SOP, applicable TMs, and manufacturer's instructions, as required.			
e. Position supplies and equipment IAW the layout plan.		1	
f Dranger elements (e.g. teem, equal etc.) for forward deployment IAW the COD, if required		i l	

f. Prepare elements (e.g., team, squad, etc.) for forward deployment IAW the SOP, if required.

g. Set up DET equipment IAW the SOP, applicable TMs, and manufacturer's instructions. h. Check equipment for serviceability IAW applicable TMs and manufacturer's instructions. i. Protect supplies and equipment IAW SOP. j. Perform preventive maintenance checks and services (PMCS) on vehicles and equipment IAW SOP. k. Camouflage area, when directed. I. Report to DET leaders when operational. m. Engage enemy forces only in a defensive mode and if attacked to protect self, patients, and medical assets, IAW provisions of the Geneva Conventions and ROE. + 8. DET personnel identity medical evacuation requirements. a. Establish helicopter LZ and AXPs, as required. b. Identify the location of MTFs. c. Coordinate and synchronize evacuation to various medical treatment facilities. + 9. DET personnel set up field sanitation facilities. a. Determine latrines placement. b. Set up water source. c. Provide safety procedures IAW SOPs and publications. d. Erect hand washing stations. +* 10. DET leaders evaluate operations (at the commander's discretion). a. Request external evaluation. b. Monitor the current situation to collect relevant information. c. Evaluate progress toward attaining end state conditions, achieving objectives, and performing task. d. Conduct an AAR to recommend or direct action for improvement. e. Improve coordination and synchronization of support plan as situations change or as a result an AAR. f. Maintain communications with higher HQ. g. Modify internal and external SOPs as necessary. h. Submit the required reports and updates to higher HQ. i. Determine requirement for security during movement. Assess +* 11. Commander assesses training and renders a proficiency assessment (Trained, Practiced, and Untrained) based on observed task performance and other feedback. a. Takes a holistic view of various forms of feedback when assessing training. b. Records assessment results for future reference.

Mission(s) supported: None

MOPP 4: Sometimes

MOPP 4 Statement: Some iterations of this task should be performed in mission-oriented protective posture (MOPP) Level 1-4 as directed by the commander and/or leaders. At MOPP4, performance degradation factors increases planning completion times. Ensure to comply with commanders guidance and unit TSOP when conducting operations in MOPP gear. Chemical protective clothing ensemble and field protective mask restrict movement and activities. Wear appropriate MOPP gear only when threat forces have used chemical, biological, radiological, and nuclear (CBRN) weapons or as command directed. MOPP gear should be worn during CBRN training exercises. During MOPP training, leaders must ensure personnel are monitored for potential heat and cold weather injuries. Command policies, Army regulation, and unit SOP must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines in accordance with CBRN and Army regulations.

NVG: Never

NVG Statement: None

Prerequisite Collective Task(s):

Step Number	Task Number	Title	Proponent	Status
6.	63-TM-4518	Establish Unit Area	63 - Multifunctional Logistics (Collective)	Approved

Supporting Collective Task(s):

Step Number	Task Number	Title	Proponent	Status
1.	71-CO-5100	Conduct Troop Leading Procedures	71 - Mission Command (Collective)	Approved
5.	63-TM-0727	Integrate into Higher Echelon's Defense	63 - Multifunctional Logistics (Collective)	Approved
5.	08-CO-0321	Conduct Medical Company Defense Operations	08 - Medical (Collective)	Approved
9.	08-CO-0002	Perform Field Sanitation Functions	08 - Medical (Collective)	Approved

OPFOR Task(s): None

Supporting Individual Task(s):

Step Number	Task Number	Title	Proponent	Status
1.	150-LDR-5012	Conduct Troop Leading Procedures	150 - Mission Command (Individual)	Approved
4.	150-LDR-5006	Establish Conditions for Subordinates to Exercise Initiative	150 - Mission Command (Individual)	Approved
4.	150-LDR-5015	Lead the Unit	150 - Mission Command (Individual)	Approved
4.	150-LDR-5007	Establish a Shared Understanding	150 - Mission Command (Individual)	Approved
4.	150-LDR-5004	Communicate the Commander's Intent	150 - Mission Command (Individual)	Approved
5.	071-COM-0304	Prepare an Operation Overlay	071 - Infantry (Individual)	Approved
5.	071-COM-1000	Identify Topographic Symbols on a Military Map	071 - Infantry (Individual)	Approved
5.	150-LDR-5021	Allocate Resources	150 - Mission Command (Individual)	Approved
5.	071-COM-0203	Select a Movement Route Using a Map	071 - Infantry (Individual)	Approved
5.	150-LDR-5039	Lead the Rehearsal	150 - Mission Command (Individual)	Approved
5.	071-COM-0401	Coordinate with an Adjacent Unit	071 - Infantry (Individual)	Approved
5.	071-COM-1002	Determine the Grid Coordinates of a Point on a Military Map	071 - Infantry (Individual)	Approved
5.	150-LDR-5044	Provide Direction	150 - Mission Command (Individual)	Approved
5.	150-COM-7150	Plan Unit Individual Training	150 - Mission Command (Individual)	Approved
6.	150-LDR-5100	Lead the Operations Process	150 - Mission Command (Individual)	Approved
6.	071-COM-1005	Determine a Location on the Ground by Terrain Association	071 - Infantry (Individual)	Approved
6.	071-COM-0204	Use a Map Overlay	071 - Infantry (Individual)	Approved
6.	071-COM-0307	Prepare a Situation Map	071 - Infantry (Individual)	Approved
6.	081-COM-2001	Supervise Compliance Preventive Medicine Measures (PMM)	081 - Medical (Individual)	Approved
6.	071-COM-4408	Construct Individual Fighting Positions	071 - Infantry (Individual)	Approved
6.	150-LDR-5022	Conduct Pre-Combat Inspections	150 - Mission Command (Individual)	Approved
6.	071-COM-1002	Determine the Grid Coordinates of a Point on a Military Map	071 - Infantry (Individual)	Approved
6.	071-COM-1011	Orient a Map Using a Lensatic Compass	071 - Infantry (Individual)	Approved
7.	071-COM-0608	Use Visual Signaling Techniques	071 - Infantry (Individual)	Approved
7.	150-LDR-5319	Delegate Authority	150 - Mission Command (Individual)	Approved
7.	071-COM-0513	Select Hasty Fighting Positions	071 - Infantry (Individual)	Approved
9.	081-COM-2000	Coordinate Medical Activity Support	081 - Medical (Individual)	Approved
9.	081-COM-2001	Supervise Compliance Preventive Medicine Measures (PMM)	081 - Medical (Individual)	Approved
9.	081-COM-1053	Apply Individual Preventive Medicine Countermeasures	081 - Medical (Individual)	Approved
10.	150-MC-5124	Refine the Plan	150 - Mission Command (Individual)	Approved
10.	150-COM-7133	Identify Potential Training Issues	150 - Mission Command (Individual)	Approved
10.	150-COM-7230	Conduct an After Action Review for a Training Event	150 - Mission Command (Individual)	Approved
11.	150-LDR-5045	Receive Feedback	150 - Mission Command (Individual)	Approved

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to the current Environmental Considerations manual and the current GTA Environmental-related Risk Assessment card. ATP 3-34.5.

Safety: In a training environment, leaders must perform a risk assessment in accordance with current Risk Management Doctrine. Leaders will complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW current CBRN doctrine. ATP 5-19.
