

ART 6.8.1.2 Perform Occupational and Environmental Health Surveillance

Perform occupational and environmental health surveillance. Develop and update the environmental health site assessment.(FM 4-02.17)
(USAMEDDC&S)

NO.	Scale	Measure
01	Yes/No	Occupational and environmental health surveillance established in the AO prevented or reduced the number and percent of personnel who became exposed to OEH hazards.
02	Yes/No	Significant OEH hazards were identified in the AO.
03	Time	To refine OEH hazard surveillance program for AO after receipt of warning order.
04	Time	To detect, identify, quantify, and evaluate OEH hazards; develop controls and communicate risk to minimize health risks.
05	Percent	Difference between planned OEH surveillance requirements and actual requirements in the AO.
06	Percent	Of personnel in AO without health threat education and training provided.
07	Percent	Of personnel in AO without appropriate personal protective equipment or engineering controls to minimize health risks of identified OEH hazards.
08	Percent	Of identified OEH hazards in the AO that have been evaluated using risk assessment.
09	Number	Of identified OEH exposures recorded in individual health records.
