

ART 1.6.5 Conduct Nontactical Movements

Execute a movement in which troops and vehicles are arranged to expedite their movement and conserve time and energy when no enemy interference, except by air, is anticipated. Environmental considerations are applied as appropriate. (FM 3-90) (USACAC)

NO.	Scale	Measure
01	Yes/No	Unit identified key airfields and airfield management forces have conducted planning using the movement and maneuver objectives of occupying forces.
02	Yes/No	Initial planning efforts revealed airfield support requirements to enhance the movement and maneuver of forces.
03	Yes/No	Commander identified and appointed senior airfield authority.
04	Yes/No	Commander authorized and certified in writing those personnel to approve and submit notices to airmen into the defense internet notice to airmen service.
05	Yes/No	Unit conducted daily and annual airfield inspections and checks to ensure a safe airfield environment.
06	Time	To coordinate airfield security plan with available forces.
07	Time	To develop a plan for airfield occupation.
08	Time	To develop a plan for airfield parking.
09	Time	To assess runway and landing area use and safety requirements.
10	Time	To establish maximum on ground requirements for C-130/C-27J or other cargo aircraft used in joint or multinational operations.
11	Time	To coordinate the repair of runway and landing areas for operational use.
12	Time	To coordinate airfield lighting and marking requirements for aircraft operations.
13	Time	To establish a Pre-Accident/Aircraft Mishap Response Plan.
14	Time	To establish an airfield reporting and pilot notice system.
15	Time	To establish air traffic control services and develop airspace usage agreements.

16	Time	To establish a precision approach.
17	Time	To establish a nonprecision approach.
18	Time	To implement an Airfield Management Plan that includes procedures for wildlife management, foreign object damage prevention, airfield safety, hazardous materials handling, and environmental control and management.
19	Number	Of follow-on forces required to expand airfield activities to meet full mission requirements (crash rescue, movement control, cargo handling, engineer construction and repair, security, contracting, weather support, refuel, and armament).
20	Number	Of aircraft diverted or cancelled because airfields or landing zones are not prepared or managed sufficiently.
