

## ART 5.1.3.6.2 Regenerate Units and Organizations as Part of a Reconstitution Effort

Regeneration is the rebuilding of a unit, involving large-scale replacement of personnel, equipment, and supplies. This is a higher level of reorganization than the unit can do during normal reorganization without major personnel resources. (FM 100-9) (CASCOM)

NO.	Scale	Measure
01	Yes/No	Unit regenerated and maintained seamless continuity of operations.
02	Yes/No	Commander provided new graphic control measures.
03	Yes/No	Commander adopted new task organization, if required.
