Performance Steps

1. Receive approval from the Geographical Combatant Commander to conduct interment tasks.

Note: Under extreme circumstances (when there are no command and communication channels with higher headquarters) the senior commander must make the decision to inter remains, but only after all other support options have failed.

2. Determine the following mission requirements:

a. Number, location, and condition of human remains to be interred.

b. Interment team leader and personnel.

c. Life support, field sanitation, and supplies for team.

d. Security and transportation for team and human remains.

e. Engineer assets, EOD, and CBRN support if needed.

f. Chaplain (UMT) support and special religious considerations, or selection of non-clergy personnel to perform non-clergy memorial services as outlined in JP 4-06.

3. Monitor the interment of remains (task # 101-92M-1504, 2504, 3505, and 4501).

4. Provide the following guidance to the commander:

a. Brief the commander on all applicable regulations and procedures.

b. Update the commander on any changes that may affect the mission.

c. Provide the commander with a detailed closing report after all human remains are interred.

d. Ensure all case files are hand carried to JMAO by special courier.

(Asterisks indicates a leader performance step.)

Evaluation Guidance: Score the NCO a Go if all steps are passed (P). Score the NCO a NO-GO if any step is failed (F). If the NCO fails any step, show what was done wrong and how to do it correctly.

Evaluation Preparation: Use a predetermined site. Provide the Soldier with required personnel and equipment to perform the task. If mannequins will be used for training purposes ensure they are handled as actual fatalities.

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to FM 3-34.5 Environmental Considerations and GTA 05-08-002 ENVIRONMENTAL-RELATED RISK ASSESSMENT. "Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning.

Always be alert to ways to protect our environment during training and missions. In doing so you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects."

Safety: In a training environment, leaders must perform a risk assessment in accordance with FM 5-19, Risk Management. Leaders will complete a DA Form 7566 COMPOSITE RISK MANAGEMENT WORKSHEET during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW FM 3-11.4, Multiservice Tactics, Techniques, and Procedures for Nuclear, Biological, and Chemical (NBC) Protection, FM 3-11.5, Multiservice Tactics, Techniques, and Procedures for Chemical, Biological, Radiological, and Nuclear Decontamination. Everyone is responsible for safety. A thorough risk assessment must be completed prior to every mission or operation.
