Purpose

This course is intended to provide enlisted personnel additional lifesaving skills and knowledge. The Combat Lifesaver will be able to provide additional aid for their squad until the casualty(s) can be evacuated to definitive care (i.e. an aid station or field hospital) or a medic arrives to take over. These lesson materials can be used for both formal and informal learning.

Special Instructions

This training is intended for initial certification, but can be modified for refresher training.

- The initial course will be 40 hours.
 - Will follow the course map from Deployed Medicine.
 - Written examination is required.
 - Practical exercise and validation of skills is required.
 - Certification is valid for one year.
-
- The annual refresher will be two days.
 - Day one: training knowledge overview, and skills practice.
 - Day two: practical exercise and skills validation.
 - Soldiers should review course content prior to beginning the refresher training which will be conducted over two days.

A refresher course will be conducted annually or for pre-deployment.

Battalion or brigade senior 68W, Combat Medic Specialist, will coordinate all Tactical Combat Casualty Care (TCCC), Combat Life Saver (CLS) training, materiel, and equipment to conduct CLS classes tailored to the units requirements. The course content from Deployed Medicine website <https://www.deployedmedicine.com/market/193> and this TSP will be used at a minimum. Additional course content can be added based on the units METL and the operational environment. Instructors must complete the TCCC-CLS Train the Trainer Online Course <https://www.deployedmedicine.com/market/226/content/1671> prior to beginning the course. Unit will maintain completion of training records (initial/Refresher) for all Soldiers in Digital Training Management System (DTMS). Soldiers will take a copy of the initial certificate signed by an O5 and above to their S-1 for inclusion into their personnel records.

Safety / Risk Management

In a training environment, leaders must perform a risk assessment in accordance with ATP 5-19, Risk Management. Leaders will complete a DD Form 2977, Deliberate Risk Assessment Worksheet, during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC).

Environmental

Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and mission. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to the Environmental Consideration manual and the current GTA Environmental-related Risk Assessment card. Environmental considerations for this lesson have little to no impact on mission accomplishment.

NOTE: Instructor should conduct a risk assessment to include environmental considerations IAW the current environmental considerations publication, and ensure students are briefed on hazards and control measures.

A. Based on its commitment to environmental protection, the Army will conduct its operations in ways that minimize environmental impacts.

(1) Comply with all environmental laws and regulations. This includes federal, state, local, and Host Nation laws, some of which are outlined in TC 3-34.489, The Soldier and the Environment, 26 Oct 2001, Appendix B.

(2) Prevent pollution at the source by reducing, reusing, and recycling material that causes pollution.

(3) Conserve and preserve natural and cultural resources so that they will be available for present and future generations.

B. Units and installations will prepare an environmental risk assessment using the before, during, and after checklist found in TC 3-24.489, Appendix A. The checklist should supplement local and state environmental regulations applicable to your area.

CONTENTS

Every lesson in the TSP zip file contains the following sections:

- Section I. Administrative Data
- Section II. Introduction
- Section III. Presentation
- Section IV. Summary
- Section V. Student Evaluation
- Appendix A - Viewgraph Masters
- Appendix B - Test(s) and Test Solution(s) (N/A)
- Appendix C - Practical Exercises and Solutions
- Appendix D - Student Handouts
