

Summary Report for Individual Task
091-94E-2003
Verify Repair of Radio/CCI Equipment
Status: Approved

Distribution Restriction: Approved for public release; distribution is unlimited.

Destruction Notice: None

Foreign Disclosure: FD5 - This product/publication has been reviewed by the product developers in coordination with the CASCOM/FT. LEE foreign disclosure authority. This product is releasable to students from all requesting foreign countries without restrictions.

Condition: You are the section Sergeant in an Electronic Maintenance/Avionics repair facility. Your Soldiers are performing repair on a non-mission capable Radio/CCI equipment in which you must verify their progress and ensure proper procedures throughout the repair process. At your disposal you have the following: The Army Maintenance Management System (Tamms) Users Manual, DA PAM 750-8; Safety Requirements for Maintenance of Electrical and Electronic Equipment, TB 385-4 and Local SOP.

Standard: Verify repair operations in accordance with applicable Regulations and local SOP. Ensure personnel are following all safety measures.

Special Condition: None

Safety Risk: Low

MOPP 4:

Task Statements

Cue: You are the Section Sergeant in a Radio Repair facility.

DANGER
None

WARNING
None

CAUTION
None

Remarks: None

Notes: None

Performance Steps

1. Direct Soldiers on repair procedures as needed.
2. Monitor maintenance operations to ensure safety standards are being followed in accordance with unit SOPs.
3. Verify final or quality assurance/ quality control inspection of repaired equipment.

(Asterisks indicates a leader performance step.)

Evaluation Guidance: Score the Soldier GO if all performance measures are passed (P). Score the Soldier NO-GO if any performance measure is failed (F). If the Soldier fails any performance measure, show what was done wrong and how

to do it correctly.

Evaluation Preparation: Ensure all items required in the condition statement (or appropriate substitutions) are on hand and all safety requirements are met.

PERFORMANCE MEASURES	GO	NO-GO	N/A
1. Advised Soldiers on repair procedures as needed.			
2. Monitored maintenance operations to ensure safety standards were followed in accordance with unit SOPs.			
3. Verified final or quality assurance/quality control inspection of repaired equipment.

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to FM 3-34.5 Environmental Considerations and GTA 05-08-002 ENVIRONMENTAL-RELATED RISK ASSESSMENT.

Safety: In a training environment, leaders must perform a risk assessment in accordance with ATP 5-19, Risk Management. Leaders will complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW FM 3-11.4, Multiservice Tactics, Techniques, and Procedures for Nuclear, Biological,

and Chemical (NBC) Protection, FM 3-11.5, Multiservice Tactics, Techniques, and Procedures for Chemical, Biological, Radiological, and Nuclear Decontamination.
