

ART 5.6.1.1 Provide Space-based Position, Navigation, and Timing Support

Provide position, navigation, and timing support to assist the integration of the global positioning system (GPS) satellite constellation with user-level equipment. This task includes assessing the ability of both friendly and threat asset use, assessing and countering threats to friendly use, countering threat asset use and identifying requirements and coordinating for theater level enhanced coverage. (FM 3-14) (USASMDC)

NO.	Scale	Measure
01	Yes/No	Unit identified friendly position navigation and timing support required, to include enhanced coverage requirements for systems and precision-guided weapons, and it integrated assessment into operational planning and execution.
02	Yes/No	Unit assessed threats to friendly position, navigation and timing accuracies; disseminated tactics, techniques, and procedures to users.
03	Yes/No	Unit assessed threat access and use of position, navigation, and timing assets and friendly abilities to counter or degrade use.
04	Yes/No	Unit identified constellation coverage and satellite status and disseminated times of decreased accuracy with sufficient planning time available.
05	Yes/No	Unit coordinated for additional operational capabilities to enhance coverage or counter known or suspected threat jammers.
06	Time	To process request for GPS enhanced theater support .
07	Time	To assess and respond to reports of local GPS degradation.
