

## ART 5.2 Conduct Command Post Operations

Organize, create or erect, operate, and move the principal facility used by the commander to exercise mission command of tactical operations. The command post performs the mission command warfighting functions discussed in succeeding subtasks. (FM 6-0) (USACAC)

Note: ART 6.5.3 (Establish Local Security) and ART 6.11.1 (Conduct Operations Security) address tasks inherently associated with conduct of command post operations. The measures of performance for those tasks are not included with the measures of performance of any of the tasks in this chapter since they are separate tasks.

NO.	Scale	Measure
01	Yes/No	Command post supported commanders in exercising mission command of their units to accomplish the mission within the time and parameters specified by the higher commander and as stated in the operation order.
02	Time	To form command post from fully operational headquarters.
03	Time	To determine command post structure.
04	Time	To accomplish missions.
05	Percent	Of tactical actions or operations able to be executed.
06	Percent	Of missions accomplished.
