

Summary Report for Individual Task
551-88N-1129
Identify Hazardous Material
Status: Approved

Distribution Restriction: Approved for public release; distribution is unlimited.

Destruction Notice: None

Foreign Disclosure: FD1 - The materials contained in this course have been reviewed by the course developers in coordination with the Fort Lee, VA foreign disclosure authority. This course is releasable to students from all requesting foreign countries without restrictions.

Condition: In an operational environment, given placards charts, military shipping label (MSL), shipping documents, supply documents and/or physical items to be shipped, DOT Chart, DTR 4500.9-R, TM 38-250, and 49 CFR.

Standard: Identify the type of hazardous materials and their placard/label requirements with 100 percent accuracy using the hazardous materials table in 49 CFR.

Special Condition: Some iterations of this task should be performed in MOPP.

Safety Risk: Low

Cue: None

DANGER
None

WARNING
None

CAUTION
None

Remarks: None

Notes: None

Performance Steps

1. Identify the type of hazardous material and shipment requirements and limitations.
 - a. Identification number.
 - b. Proper shipping name.
 - c. Hazard class or division number.
 - d. Packing Group.
 - e. Total quantity of hazardous material,(except for Transportation by aircraft).
 - f. Total net mass per package, for transportation by aircraft only.
 - g. Number and type of packages. (Section number that describes the packaging and shipment requirements. (173...)).
2. Identify the type of hazardous material by placard/labeling.
3. Review the definition of hazardous materials.
 - a. A substance or material.
 - b. Capable of posing unreasonable risk to health, safety, and property when transported.
 - c. Refer to as hazardous cargo or dangerous goods.

(Asterisks indicates a leader performance step.)

Evaluation Guidance: Score the Soldier GO if all performance steps are passed. Score the Soldier NO-GO if any performance steps are failed. In case of a NO-GO, brief the Soldier on the deficiency, retrain the Soldier to perform the step correctly, and reevaluate the task.

Evaluation Preparation: Setup: Provide the Soldier with documentation covering the shipment; CFR 49.

Brief Soldier: Tell the Soldier to determine the type and amount of hazardous cargo and the mode of the transport and to tell the supervisor the procedures and responsibilities applicable for the movement of explosives and other hazardous material by modes of commercial transportation.

PERFORMANCE MEASURES	GO	NO-GO	N/A
1. Identified the type of hazardous material and shipment requirements and limitations.			
2. Identified the type of hazardous material by placard/labeling.			
3. Reviewed the definition of hazardous materials.

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to FM 3-34.5 Environmental Considerations and GTA 05-08-002 ENVIRONMENTAL-RELATED RISK ASSESSMENT. 200-1 delineates TRADOC responsibilities to integrate environmental requirements across DOTLMPF and ensure all training procedures, training manuals, and training doctrine includes sound environmental practices and considerations. The Army's environmental vision is to be a national leader in environmental and natural resource stewardship for present and future generations as an integral part of all Army missions. Environmental protection is never completed. Continuously be alert to ways to protect our environment and reduce waste. This individual task meets this standard.

Safety: In a training environment, leaders must perform a risk assessment in accordance with ATP 5-19, Risk Management. Leaders will complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW FM 3-11.4, Multiservice Tactics, Techniques, and Procedures for Nuclear, Biological, and Chemical (NBC) Protection, FM 3-11.5, Multiservice Tactics, Techniques, and Procedures for Chemical, Biological, Radiological, and Nuclear Decontamination.
