

Summary Report for Individual Task
551-88N-4105
Validate Movements Using Time Phase Force Deployment Data
Status: Approved

Distribution Restriction: Approved for public release; distribution is unlimited.

Destruction Notice: None

Foreign Disclosure: FD1 - The materials contained in this course have been reviewed by the course developers in coordination with the Fort Lee, VA foreign disclosure authority. This course is releasable to students from all requesting foreign countries without restrictions.

Condition: In an operational environment, given an operation order (OPORD), unit movement plans, guidance from commander, JOPES User Guide, IAW ATP 4-16 and FM 55-1.

Standard: Validate the unit movement plans and obtain commanders approval to ensure that it is IAW commander's guidance, JOPES Users Guide, ATP4-16 and FM 55-1.

Special Condition: None

Safety Risk: Low

MOPP 4:

Task Statements

Cue: None

DANGER
None

WARNING
None

CAUTION
None

Remarks: None

Notes: None

Performance Steps

1. Verify Units deploying support the Operation Plan (OPLAN) with a priority indicating the desired sequence for their arrival at the Port of Debarkation (POD).
 - a. Keep the Organizational Equipment List (OEL) current with changes in unit equipment, personnel and supplies.
 - b. Update the Unit Deployment List (UDL) as changes occur in the OPLAN.
2. Confirm routing of forces to be deployed.
 - a. Maintain internal deployment schedules.
 - b. Report unit level deployment information to higher headquarters.
3. Validate estimates of non-unit-related cargo and personnel movements conducted concurrently with the deployment of forces.
 - a. Provide life support at staging, marshalling areas, and Port of Embarkation (POE).
 - b. Provide material handling equipment (MHE) and container handling equipment (CHE) support.
4. Validate estimates of transportation requirements filled by common-user lift resources as well as those requirements filled by assigned or attached transportation resources.

(Asterisks indicates a leader performance step.)

Evaluation Guidance: Score the Soldier GO if all performance steps are passed. Score the Soldier NO-GO if any performance steps are failed. In case of a NO-GO, brief the Soldier on the deficiency, retain the Soldier to perform the step correctly, and reevaluate the task.

Evaluation Preparation: None

PERFORMANCE MEASURES	GO	NO-GO	N/A
1. Verified Units deploying support the OPLAN with a priority indicating the desired sequence for their arrival at the POD.			
a. Kept the Organizational Equipment List (OEL) current with changes in the unit equipment, personnel and supplies.			
b. Updated the Unit Deployment List (UDL) as changes occurred in the OPLAN.			
2. Confirmed routing of forces to be deployed.			
a. Maintained internal deployment schedules.			
b. Reported unit level deployment information to higher headquarters.			
3. Validated estimates of non-unit-related cargo and personnel movements conducted concurrently with the deployment of forces.			
a. Provided life support at staging, marshalling areas, and Port of Embarkation (POE).			
b. Provided material handling equipment (MHE) and container handling equipment (CHE) support.			
4. Validated estimates of transportation requirements filled by common-user lift resources as well as those requirements filled by assigned or attached transportation resources.

	JOPE USER GUIDE	JOPE USER GUIDE	Yes	No

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to FM 3-34.5 Environmental Considerations and GTA 05-08-002 ENVIRONMENTAL-RELATED RISK ASSESSMENT. All operations must conform to the Army Environmental Program, TC 3-34.489 (The Soldier and the Environment), FM 3-100.4 (Environmental Considerations in Military Operations), AR 200-1 (Environmental Protection and Enhancement), local, state, and federal environmental policies, The Clean Air Act (CAA), CAA amendments, National Ambient Air-Quality Standards (NAAQS), as well as OSHA Hazard Communication Standard for Industry, 29 CFR, part 1910. "It is the instructor's responsibility to conduct a risk assessment prior to instruction using FM 100-14 as guidance. A copy of the risk management work sheet must be present at time of instruction."

Safety: In a training environment, leaders must perform a risk assessment in accordance with ATP 5-19, Risk Management. Leaders will complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW FM 3-11.4, Multiservice Tactics, Techniques, and Procedures for Nuclear, Biological, and Chemical (NBC) Protection, FM 3-11.5, Multiservice Tactics, Techniques, and Procedures for Chemical, Biological, Radiological, and Nuclear Decontamination.
