

ART 5.1.1.5 Integrate Space Capabilities

Plan, coordinate, and integrate space-based capabilities and products (national, military, and commercial) to support tactical planning and execution (the military decisionmaking process and conduct of operations) to effectively meet requirements established for mission accomplishment. Coordinate across all staff elements to identify space-based asset support. Determine essential, specified, and implied tasks from a space perspective in mission analysis. Develop space input to intelligence preparation of the battlefield and other staff estimates Provide space-based support options, space-based products that support concept of operations development, and space-based products that support course of action analysis and statements in course of action development Develop space running estimate. Coordinate for additional operational space capabilities to support mission requirements space-based input to event templates, synchronization matrix, decision support template, and communications and sustainment estimates. (FM 3-14) (USASMDC)

NO.	Scale	Measure
01	Yes/No	Unit analyzed higher headquarters orders from a space perspective.
02	Yes/No	Unit recommended space-specific specified, implied, and essential tasks.
03	Yes/No	Unit identified space assets available to support mission requirements.
04	Yes/No	Unit identified space and terrestrial environmental impacts on mission.
05	Yes/No	Unit integrated available Army space support team and space support element into planning.
06	Yes/No	Unit initiated coordination for required operational space capabilities.
07	Yes/No	Unit provided initial space input to intelligence preparation of the battlefield.
08	Yes/No	Unit identified space control and force protection measures required to maintain space superiority.
09	Yes/No	Unit coordinated with other staff sections to identify space assets available to assist.
10	Yes/No	Unit developed and maintained running space estimate.

11	Yes/No	Unit incorporated space estimate into mission analysis.
12	Yes/No	Unit provided space input to mission analysis.
13	Yes/No	Unit recommended space-specific priority intelligence requirement to the intelligence officer.
14	Yes/No	Unit provided space input to unit course of action development.
15	Yes/No	Unit finalized space input to the warning and operations order.
16	Yes/No	Unit prepared space operations annex to operation plan and order.
