

ART 6.9.3.2.1.3 Conduct Chemical, Biological, Radiological, and Nuclear (CBRN) Sample Management

Chemical, biological, radiological, and nuclear (CBRN) sample management is the process that includes the collection, packaging, transport, storage, transfer, accountability, and reporting associated with environmental samples and medical specimens related to CBRN hazards in order to inform military decisionmaking for operations, medical support, and potential exploitation. (FM 3-11) (USACBRNS)

NO.	Scale	Measure
01	Yes/No	Unit handled and processed contaminated and infectious equipment, samples, residues, animal remains, and waste.
02	Yes/No	Unit contained contaminated and infectious equipment, samples, residues, animal remains, and waste.
03	Yes/No	Unit safely stored contaminated and infectious equipment, samples, residues, animal remains, and waste.
04	Yes/No	Unit safely transported contaminated and infectious equipment, samples, residues, animal remains, and waste.
05	Yes/No	Unit outlined procedures of the chain of actions and associated processes from collection or identification (through processing and storage) to disposition actions.
06	Yes/No	Unit outlined procedures on how to gather samples and adhered to chain of custody of contaminated and infectious evidence.
07	Yes/No	Unit addressed procedures on how to transfer custody of contaminated and infectious evidence.
08	Yes/No	Unit identified personnel to wear personal protective equipment.
09	Yes/No	Unit ensured personnel wore appropriate personal protective equipment.
10	Yes/No	Unit appointed a safety officer to monitor operations in weapons of mass destruction (WMD) environments.
11	Yes/No	Unit identified and used appropriately contaminated and noncontaminated transportation routes.

12	Yes/No	Unit followed procedures to prevent secondary exposure and threats of WMD.

Supporting Collective Tasks:

Task No.	Title	Proponent	Echelon
03-3-0004	Conduct CBRN Mounted Reconnaissance - Sampling	03 - CBRN (Collective)	Platoon
03-3-0028	Prepare a Biological Sample for Evacuation	03 - CBRN (Collective)	Platoon
03-3-0029	Evacuate Biological Samples to the Designated Sample Transfer Point	03 - CBRN (Collective)	Platoon
03-3-0047	Conduct CBRN Dismounted Reconnaissance - Sampling	03 - CBRN (Collective)	Platoon
03-3-1034	Conduct Sampling	03 - CBRN (Collective)	Platoon
03-4-0013	Coordinate Chemical/Biological Survey/Sampling Operations	03 - CBRN (Collective)	Section
03-5-0014	Conduct Escort Missions	03 - CBRN (Collective)	Team (TOE)
03-5-0015	Conduct a Remediation and Restoration Mission	03 - CBRN (Collective)	Team (TOE)
03-5-0016	Conduct a Recovered Chemical Warfare Material (RCWM) Mission	03 - CBRN (Collective)	Team (TOE)
03-5-0017	Conduct a Technical Escort (TE) Sampling Mission	03 - CBRN (Collective)	Team (TOE)
03-5-0021	Conduct a Transload Mission	03 - CBRN (Collective)	Team (TOE)
03-5-0031	Perform Handling of Hazardous Materials Related to a Nuclear Facility	03 - CBRN (Collective)	Team (TOE)
03-6-0080	Plan Biological Surveillance and Sampling Operations	03 - CBRN (Collective)	Brigade
