Step Number	Reference ID	Reference Name	Required	Primary
	ATP 3-07.5	Stability Techniques	Yes	Yes

Condition: The command receives a mission order from higher headquarters and the commander issues guidance on coordinating the protection of natural resources and the environment. The command establishes communications with subordinate and adjacent units, and higher headquarters. The mission command system is operational and processing information. Some iterations of this task should be performed in MOPP 4.

Standard: The staff coordinates the protection of the host nations natural resources to ensure the preservation of the long-term economic development and investment capacity. The staff coordinates environmental studies, natural resource security, judicial responsibilities concerning natural resources and the necessary restoration of vital resources.

Safety Risk: Low

Task Statements

Cue: None

DANGER Leaders have an inherent responsibility to conduct Risk Management to ensure the safety of all Soldiers and promote mission accomplishment.
--

WARNING Risk Management is the Army's primary decision-making process to identify hazards, reduce risk, and prevent both accidental and tactical loss. All Soldiers have the responsibility to learn and understand the risks associated with this task.
--

CAUTION

Identifying hazards and controlling risks across the full spectrum of Army functions, operations, and activities is the responsibility of all Soldiers.

Remarks: None

Notes: None

TASK STEPS

1. The staff, in conjunction with unified action partners and the host nation authorities, coordinate initial support for the protection of natural resources by:

a. Assessing natural resources.

(1) Location of resources.

(2) Amount of resources.

b. Securing natural resources.

(1) Provide protection to facilities.

(2) Secure trade routes.

2. The staff coordinates with unified action partners to assist host nation authorities with the transformation process by:

a. Assessing economic based threats.

(1) Violent extremist organizations (VEO).

(2) Public sector corruption.

b. Preventing the Illicit revenues.

(1) Resolve resource ownership issues.

(2) Prevent capture of proceeds from sale of resources.

(3) Interdict illegal transportation and sale of resources.

3. The staff supports host nation sustainability by:

Note: these steps are as required by the commander, the situation, and/or orders from higher.

a. Developing mechanisms to manage natural resources and the environment.

b. Developing a nationwide customs administration.

c. Protecting the rights of importer and exporter.

d. Collecting expected revenue.

e. Establishing trade through legal channels.

(Asterisks indicates a leader performance step.)

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to FM 3-34.5 Environmental Considerations and GTA 05-08-002 ENVIRONMENTAL-RELATED RISK ASSESSMENT. .

Safety: In a training environment, leaders must perform a risk assessment in accordance with ATP 5-19, Risk Management. Leaders will complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW FM 3-11.4, Multiservice Tactics, Techniques, and Procedures for Nuclear, Biological, and Chemical (NBC) Protection, FM 3-11.5, Multiservice Tactics, Techniques, and Procedures for Chemical, Biological, Radiological, and Nuclear Decontamination. .
