

Training and Evaluation Outline Report

Status: Approved

09 Jan 2015

Effective Date: 30 Sep 2016

Task Number: 71-9-4433

Task Title: Manage Health Services Resources in the Joint Operations Area (Division Echelon and Above [Operational])

Distribution Restriction: Approved for public release; distribution is unlimited.

Destruction Notice: None

Foreign Disclosure: FD1 - This training product has been reviewed by the training developers in coordination with the Fort Leavenworth foreign disclosure officer. This training product can be used to instruct international military students from all approved countries without restrictions.

Supporting Reference(s):

Step Number	Reference ID	Reference Name	Required	Primary
	JP 3-16	Multinational Operations	Yes	No
	JP 4-0	Joint Logistics	Yes	No
	JP 4-02	Health Service Support	Yes	Yes

Conditions: The command is conducting operations as a Joint Task Force (JTF) or as a Combined Joint Task Force (CJTF) headquarters. The command's headquarters receives liaison, unit, and individual augmentees. The command receives an operations order from higher headquarters. The commander issues guidance on health services resource management in the joint operations area. The command establishes communications with subordinate and adjacent units and higher headquarters. The mission command system is operational and processing information. This task should not be trained in MOPP 4.

Standards: The staff manages health services resources in the joint operations area to ensure effective and consistent treatment of wounded, injured, and sick personnel resulting in return to full duty or evacuation from the joint operations area in accordance with the commanders intent, orders from higher headquarters, and standard operating procedures.

Live Fire Required: No

Objective Task Evaluation Criteria Matrix:

Plan and Prepare		Execute						Assess	
Operational Environment	Training Environment (L/V/C)	Training/Authorized	% of Leaders Present at	% of Soldiers Present at	External Eval	% Performance Measures 'GO'	% Critical Performance Measures 'GO'	% Leader Performance Measures 'GO'	Task Assessment
BDE & Above									
Dynamic and Complex (All OE Variables and Hybrid Threat)	Night	IAW unit CATS statement.	>=85%	>=80%	Yes	>=91%	All	>=90%	T
			75-84%			80-90%		80-89%	T-
Dynamic and Complex (All OE Variables and Single Threat)	Day		65-74%	75-79%	No	65-79%	<All	<=79%	P
			60-64%	60-74%		51-64%			P-
Dynamic and Complex (<All OE Variables and Single Threat)			<=59%	<=59%	<=50%	U			

Remarks: None

Notes:

Safety Risk: Low

Task Statements

Cue: None

DANGER

Leaders have an inherent responsibility to conduct Composite Risk Management to ensure the safety of all Soldiers and promote mission accomplishment.

WARNING

Composite Risk Management is the Army's primary decision-making process to identify hazards, reduce risk, and prevent both accidental and tactical loss. All soldiers have the responsibility to learn and understand the risks associated with this task.

CAUTION

Identifying hazards and controlling risks across the full spectrum of Army functions, operations, and activities is the responsibility of all Soldiers.

Performance Steps and Measures

NOTE: Assess task proficiency using the task evaluation criteria matrix.

NOTE: Asterisks (*) indicate leader steps; plus signs (+) indicate critical steps.

STEP/MEASURE	GO	NO-GO	N/A
1. The staff assesses the medical assets required to support multi-national operations with health service delivery and force health protection capabilities from point of injury or illness to the appropriate role of care by:	N/A	N/A	N/A
a. Evaluating the health aspects and threats in the operational environment.	N/A	N/A	N/A
b. Determining the geographic, topographic, and climatic variations in the area of operations.	N/A	N/A	N/A
c. Investigating variations in host nation standards of health service delivery, force health protection, and medical equipment.	N/A	N/A	N/A
d. Verifying the missions and capabilities of the multi-national medical support structure.	N/A	N/A	N/A
2. The staff plans to integrate multi-national medical support capabilities by:	N/A	N/A	N/A
a. Evaluating multi-national health services standards for medical treatment and patient movement.	N/A	N/A	N/A
b. Confirming international and theater-level conventions for the treatment of the sick and wounded persons, to include detainees, in compliance with provisions of the Geneva Conventions.	N/A	N/A	N/A
c. Assessing health services standards to ensure acceptability to all participating nations.	N/A	N/A	N/A
d. Estimating the degree of medical risk to casualty prevention, including threat identification, pre-deployment health briefings, and required medical follow-up.	N/A	N/A	N/A
3. The staff recommends scalable health service capabilities that are interoperable with other health programs, capable of rapid deployment into the operational area, and integrated across the military health system to:	N/A	N/A	N/A
a. Establish force health protection to promote, improve, or conserve the mental and physical well-being of the force by:	N/A	N/A	N/A
(1) Providing measures for a healthy and fit force.	N/A	N/A	N/A
(2) Preventing injury and illness.	N/A	N/A	N/A
(3) Protecting the force from health hazards.	N/A	N/A	N/A
b. Provide health service delivery capabilities which provide quality health care to injured and ill personnel in order to restore mental and physical well-being through:	N/A	N/A	N/A
(1) Diagnosis.	N/A	N/A	N/A
(2) Treatment.	N/A	N/A	N/A
(3) Rehabilitation.	N/A	N/A	N/A
(4) Reintegration.	N/A	N/A	N/A
(5) Casualty management.	N/A	N/A	N/A
c. Manage health system support to sustain and improve health service delivery through:	N/A	N/A	N/A
(1) Total medical force management.	N/A	N/A	N/A
(2) Health quality and safety enforcement.	N/A	N/A	N/A
(3) Health education and training.	N/A	N/A	N/A
(4) Medical financial management.	N/A	N/A	N/A
(5) Medical and health information management.	N/A	N/A	N/A
(6) Medical logistics.	N/A	N/A	N/A
d. Determine roles of medical care to provide direction and identify the requisite people, materiel, facilities, and information to promote, improve, conserve, or restore well-being.	N/A	N/A	N/A
4. The staff manages health services resources to sustain operations by:	N/A	N/A	N/A
a. Providing casualty management capability beyond unit-level medical care to include advanced trauma management and emergency medical treatment including continuation of resuscitation efforts.	N/A	N/A	N/A
b. Providing medical treatment to include resuscitation, initial wound surgery, and post-operative treatment.	N/A	N/A	N/A
c. Transporting patients evacuated from the area of operations to definitive medical care.	N/A	N/A	N/A
d. Maintaining regulated and unregulated patient movement capability from the point of injury, illness, or wounding, through successive roles of care within the theater, to include evacuation to definitive care.	N/A	N/A	N/A
e. Administering the medical regulating system to coordinate the movement of patients from site of injury or onset of disease through medical care to a medical treatment facility.	N/A	N/A	N/A
f. Developing a medical logistics structure that provides capabilities for:	N/A	N/A	N/A
(1) Medical materiel management.	N/A	N/A	N/A
(2) Medical equipment and technology.	N/A	N/A	N/A
(3) Medical equipment maintenance and repair.	N/A	N/A	N/A
(4) Optical fabrication and repair.	N/A	N/A	N/A
(5) Blood management and distribution.	N/A	N/A	N/A
(6) Centralized management of patient movement items.	N/A	N/A	N/A
(7) Health facilities planning and management.	N/A	N/A	N/A
(8) Medical logistics services.	N/A	N/A	N/A
(9) Medical contracting.	N/A	N/A	N/A

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to the current Environmental Considerations manual and the current GTA Environmental-related Risk Assessment card. Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to FM 3-34.5 Environmental Considerations and GTA 05-08-002 ENVIRONMENTAL-RELATED RISK ASSESSMENT.

Safety: In a training environment, leaders must perform a risk assessment in accordance with ATP 5-19, Risk Management. Leaders will complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW FM 3-11.4, Multiservice Tactics, Techniques, and Procedures for Nuclear, Biological, and Chemical (NBC) Protection, FM 3-11.5, Multiservice Tactics, Techniques, and Procedures for Chemical, Biological, Radiological, and Nuclear Decontamination.
